

Data-Driven Approach to Protecting Public Safety, Improving and Expanding Rehabilitative Treatment and Services, and Advancing Equity through Alternatives to Incarceration

---

**Advisory Group Meeting**

September 2022

# Guidelines for Virtual Advisory Group Meetings

- Meetings are open to the public and being recorded.
- Only Advisory Group members and SANDAG staff will be able to speak due to the focus of these meetings.
- If you would like to speak, please raise your hand. If you agree with what another member is saying, you can use other icons to share this approval.
- Please note that we value your opinions but may need to move conversations along to ensure all the meeting topics are covered.

# Meeting Agenda

- Discussion of San Diego Areas Hit Hardest by Mass Incarceration (4:30-4:50)
- ATI Working Groups Status and Updates (4:50-5:00)
- Discussion of Goals for October Meeting with the Working Group (5:00-5:10)
- Update on Project Timeline and Upcoming Tasks (5:10-5:20)
- Overview of Third Interim Report (5:20-5:30)
- Cost Analysis Overview (5:30-5:45)
- Open Sharing by Advisory Committee Members (5:45-6:00)

## Where people in prison come from: The geography of mass incarceration in California

by Emily Widra and Felicia Gomez  
August 2022  
Press release

TWEET

One of the most important criminal legal system disparities in California has long been difficult to decipher: Which communities throughout the state do incarcerated people come from? Anyone who lives in, works within heavily policed and incarcerated communities, or who has an incarcerated loved one intuitively knows that certain neighborhoods disproportionately experience incarceration. But data have never been available to quantify how many people from each community are imprisoned with any real precision.

20 detailed tables to help you find incarceration data from your California community

The datasets linked below provide the number of people from each California community known to be in the state's prisons at the time of the 2020 Census. We

# Discussion of Goals for October Meeting with the Working Group

5:00-5:10

# Update on Project Timeline and Upcoming Tasks

5:10-5:20

# Project Timeline

## October

- Joint AG/WG meeting
- 3<sup>rd</sup> Interim Report
- Work on Goals 2, 3, & 4

## November

- Meet with AG & WG
- Work on Goals 2, 3, & 4

## December

- Meet with AG & WG
- Work on Goals 2, 3, & 4
- Draft Comprehensive Report

## January

- Meet with AG & WG
- 2 Additional Community Forums
- Any outstanding work on Goals 2, 3, & 4

## February

- Meet with AG & WG
- Incorporate changes to final report
- Return to Board

## March

- Final Comprehensive Report

# Overview of Third Interim Report

5:20-5:30

# Third Interim Report

- Update on the Advisory Group and Other Accomplishments
- Update on Project Components and Methodologies
  - Goal 2: Analysis of justice system contact of those who were not booked for a drug offense or public conduct offense during the pandemic up to one-year after offense
  - Goal 3: Needs Assessment/Gap Analysis methodology
  - Goal 4: Cost Study methodology
- Data/Deliverables
  - Goal 1: Additional analyses related to jail time disparities and analysis of who received services prior to incarceration
  - Goal 3: Review of best practice information compiled to date
- Timeline for Upcoming Deliverables/Return to Board

# Cost Analysis Overview

5:30-5:45

# Overview of ATI Cost Analysis

## What This Cost Analysis Will Do

- Identify costs incurred by County agencies to deliver services to individuals booked for specific penal code offenses during the sampling period
- Provide short- and long-term costs and savings estimates in 1, 5, 10, and 20 years

## What This Cost Analysis Won't Do

- Evaluate services for their benefits or effectiveness (i.e., recidivism)
- Include non-budgetary costs, such as impact on victim, family or community by individuals being incarcerated

## Things to Think About

- Lower confidence in accuracy for later-year estimates (CPI used to adjust cost over time)
- Interval estimates more reliable than point estimates
- Legislation, criminal propensity, and alternatives must be held constant in forecasting

# ATI Cost Analysis Methodology

## Baseline Group:

- Individuals booked into jail for a misdemeanor-level drug or public conduct offense between January 1, 2018, and February 29, 2020
  - **Drug Use & Possession**
    - 11350(A) - Possession of a Controlled Substance in California
    - 11357 - Possession of Marijuana
    - 11377(A) – Methamphetamine & Drug Possession
    - 11550(A) - Under the Influence of a Controlled Substance (not lawfully prescribed) in California
    - 11364 HS - Possession of Drug Paraphernalia
  - **Public Conduct**
    - 415 - Disturbing the Peace (in a public place)
    - 602 - California Trespassing
    - 647e - Disorderly Conduct Offenses
    - 647f – Public Intoxication
- Can't be booked for any other offense for that selection booking
- Analysis at the individual level (consider all bookings an individual has after that bookings)
- Calculate all costs incurred by County related to booking, incarceration, and processing through the justice system

# ATI Cost Analysis Methodology

## Alternatives:

- PC 1000
- Sobering Centers
- Crisis Stabilization Units
- Mobile Crisis Response Team (MCRT)
- Probation Pre-Trial
- Behavioral Health Court
- Homeless Court
- Community Justice Initiative (District Attorney's CJI)
- Residential Treatment
  
- Compare cost if everyone who had received jail time instead received that one alternative (9 comparisons will be done)
- Important to note in real life that individuals could receive more than one alternative and that this analysis does not take into consideration long-term outcomes

# Open Sharing by Advisory Committee Members

5:45-6:00
