Hello Will,

I'm so sorry to hear all the trouble you are having. The deadline is 5:00 pm not 8:00 pm, but perhaps there's an issue with BidNet. Please just send us all of the materials via email and I will look into what is going on with BidNet. Appreciate you reaching out to us and please accept my apologies for the added stress.

Hello Mr Gembler and Mx Russo,

I am freaking out. I tired calling both of you but I was sent to voicemail. I am trying to submit the application before the 8pm deadline, and now I'm locked out. I guess all the time on Bidnet is set to Eastern time for some reason. I have my application complete, and I've attached it here.

How can I submit this before the deadline? Please let me know ASAP because I would like to submit this and go home. I've been working on completing this application for several days and I'm running on very little sleep.

Thank you,
Will Johnson

Hi Will,

Responding to your question below, yes "Pricing" would refer to attaching the required Project Budget document in your submission.

Thanks,

Benjamin

I'm looking at how I submit the AFA grant, and I see the upload spots for the AFA Application, the Scope of Work, The Project Budget, and Additional Documents (which I understand are largely the spreadsheets for the previous fiscal year's WAV trip information), but I was confused about this notification on the "Pricing" tab saying "Don't forget to attach your pricing in the "Documents" section". What does this mean? I see nothing in the application instructions about "pricing", or is that just the budget?
