Dear Mr. Renga:

Subject: Amendment No. 8 to the 2025 Regional Transportation Improvement Program for the San Diego Association of Governments

Amendment No. 8 to SANDAG's 2025 Regional Transportation Improvement Program (RTIP) is being transmitted to you for state and federal approval. At its July 25, 2025, meeting, the SANDAG Board of Directors ratified the action taken by the SANDAG Transportation Committee to adopt Resolution No. RTC-2026-01, approving Amendment No. 8.

Amendment No. 8 includes changes to 161 projects and 14 grouped listings within San Diego County and reflects various changes requested by SANDAG and local agencies.

SANDAG certifies that projects in this amendment are not included in any other amendment that currently is open for public review. Also, as part of the SANDAG Public Participation Policy, SANDAG transmitted the draft of Amendment No. 8 to interested parties for a 21-day public review period between June 27, 2025, and July 17, 2025. No changes were made to projects during the public comment period.

The changes in Amendment No. 8 do not affect air quality conformity and continue to conform to the applicable State Implementation Plan (SIP). The proposed amendment does not reflect any changes in the design, concept, or scope of the project or the conformity analysis years as modeled for the regional emissions analysis of the 2025 RTIP and San Diego Forward: The Amended 2021 Regional Plan.

The investments described in the 2025 RTIP, as revised with Amendment No. 8, make progress toward achieving the performance targets set by the region in accordance with the applicable provisions and requirements of 23 CFR Part 450.

The projects contained within Amendment No. 8 to the 2025 RTIP are fiscally constrained based upon available or committed funding and/or reasonable estimates of future funding.

Sincerely,

Richard Radcliffe
Associate Financial Analyst

2025 Regional Transportation Improvement Program: Amendment No. 8

Overview

The Regional Transportation Improvement Program (RTIP) is a five-year document that reflects funding sources, project phases, and fiscal years of implementation for all transportation-related projects in the San Diego region that: (1) use federal, state, or TransNet funds; (2) increase capacity of the transportation system; or (3) are regionally significant. SANDAG develops the RTIP based on projects included in the 2021 Regional Plan, as submitted by member agencies (local jurisdictions, transit agencies, Caltrans).

The [2025 RTIP](#) covers FY 2025 – FY 2029 and is fiscally constrained, meaning that enough revenue is committed or reasonably assumed to be available from local, state, and/or federal sources for each phase of the project that is included in the RTIP. Amendments are made to the RTIP on a quarterly (or as-needed) basis to reflect funding or scope changes.

Action: **Adopt**

The Transportation Committee recommends that the Board of Directors, acting as the Regional Transportation Commission, adopt resolution RTC-2026-01, approving Amendment No. 8 to the 2025 Regional Transportation Improvement Program.

Fiscal Impact:

Amendment No. 8 reflects an increase of \$269.7 million to the total amount programmed in the 2025 Regional Transportation Improvement Program.

Schedule/Scope Impact:

Amendment No. 8 reflects the addition of 13 new projects, 1 completed project, and 2 deleted projects.

Key Considerations

The changes are summarized in the attached Board Resolution (Attachment 1), and Attachment 2 with explanations for the significant changes. The proposed amendments are detailed in Attachment 3.

Key changes in Amendment No. 8 include:

- The alignment of various projects with the FY 2026 SANDAG Program Budget approved by the SANDAG Board on May 9, 2025
 - Significant Changes (\$20 million or more) include:
 - CAL29B – TransNet – Major Corridor funding was updated to align with FY 26 Budget and updated estimates from the developer fees are proposed to be lower than expected.
 - CAL277A – \$50 million of State Transportation Improvement Program – Regional Improvement Program (STIP-RIP) funding was removed from the project. This aligns with the [FY 2026 final budget](#) as approved by the Board of Directors in May 2025. As part of SANDAG's 2024 STIP submittal, this project was proposed for funding in FY 2029. SANDAG's 2024 STIP submittal proposed projects in excess of its county share funding target, which is allowed by the STIP Guidelines. The California Transportation Commission staff assessed funding availability across the state and determined that there was not sufficient funding availability to approve this funding request. This action does not delay the

current project phase, and upon Board direction this funding could be considered for the 2026 STIP which will be presented to the Board in the fall.

- SAN64 - Updated to reflect \$26.8 million of SB1- Transit and Intercity Rail Capital Program awarded for Construction phase.
- SD34 – City of San Diego is adding \$25.9 million of Local Funds to match the City's revised project cost estimate.

Changes by most local agencies consist of revising their TransNet programming based on the TransNet revenue estimates approved on February 14, 2025.

Tables 3a through 3c (Attachment 4) provide updated program financial summaries. Attachment 5 summarizes the federal requirements analysis for projects contained in Amendment No. 8. The 2025 RTIP can be found in its entirety at sandag.org/RTIP.

The Independent Taxpayer Oversight Committee reviewed the TransNet projects included in this amendment at its meeting on July 9, 2025. No comments were received.

Next Steps

Pending approval by the SANDAG Board, the 2025 RTIP Amendment No. 8 will be transmitted to Caltrans for review and approval and then forwarded to the Federal Highway Administration and Federal Transit Administration. Upon the approval of both federal agencies, the amendment will be incorporated into the 2025 Federal Statewide Transportation Improvement Program.

MPO ID: SNT34										RTIP #:25-08	
Project Title:	Broadband Infrastructure Improvements								RAS (T2-11)		
Project Description:	Mission Gorge Road - This project will provide the infrastructure needed for the final step in the City's disaster recover plan, which is the implementation of a redundant, off-site location to continue operations should City Hall become unusable. In addition fiber optic communication cables will be installed to connect existing traffic signals on Mast Boulevard, Magnolia Avenue and Mission Gorge Road. The project will provide a secured, wired fiber optic connection from City Hall to the City's Public Works Operations Center with the required bandwidth needed to operate an offsite "satellite City Hall" to serve the community and provide connections to Fire Station No. 4, Fire Station No. 5 and the future Community Center.

Federal Requirements Analysis for 2025 RTIP Amendment No. 8

Metropolitan Planning and Transportation Conformity

The U.S. Department of Transportation (U.S. DOT) Metropolitan Planning Regulations¹ and U.S. Environmental Protection Agency (U.S. EPA) Transportation Conformity Regulations² establish six criteria requirements which the RTIP must satisfy. The metropolitan planning regulations require that: (1) the RTIP be financially constrained and (2) make progress toward achieving federal performance targets. The transportation conformity regulations state that the RTIP must: (3) be consistent with San Diego Forward: The Regional Plan (Regional Plan); (4) meet regional emissions tests; (5) include timely implementation of transportation control measures (TCMs); and (6) include inter-agency consultation and public involvement.

The 2025 RTIP meets all six tests required under federal metropolitan planning and transportation conformity regulations. SANDAG made these findings for the 2025 RTIP under the required federal tests on September 27, 2024. On December 16, 2024, Federal Highways and the Federal Transit Administration found that the 2025 RTIP conforms with the provisions of 40 CFR Parts 51 and 93. Amendment No. 8 continues to meet all federal requirements.

Financial Constraint Test

Federal regulations 23 CFR Section 450.326(j) require the 2025 RTIP to be a revenue-constrained document with programmed projects based upon available or committed funding and/or reasonable estimates of future funding. Chapter 4 of the 2025 RTIP discusses in detail the financial capacity analysis of major program areas, including a discussion of available revenues.

Finding: The projects contained within the 2025 RTIP, including Amendment No. 8, are reasonable when considering available funding sources as demonstrated in Tables 3a through 3c, including a comparison from the prior approved version (changes are highlighted in yellow.)

Performance Management Test

Federal regulations 23 CFR Section 450.326(c) require the 2025 RTIP to be designed such that once implemented, it makes progress toward achieving the performance targets established under 450.306(d) and shall include, to the maximum extent practicable, a description of the anticipated effect of the RTIP toward achieving the performance targets identified in the transportation plan, linking investment priorities to those performance targets. Appendix H of the 2025 RTIP provides information on the projects which support safety and transit asset management performance management requirements.

Finding: The projects contained within the 2025 RTIP, including Amendment No. 8, make progress toward achieving the performance targets for all performance-based planning requirements established by the Board of Directors.

Consistency with San Diego Forward: The Regional Plan Test

Finding: The 2025 RTIP, through Amendment No. 8, is consistent with San Diego Forward: The Amended 2021 Regional Transportation Plan (2021 Regional Plan) adopted on December 10, 2021 (policies, programs, and projects). All projects conform to the scope, cost, and schedule included in the 2021 Regional Plan.

Regional Emissions Tests

These findings are based on the regional emissions analyses' tests shown in Table 5-2 in Chapter 5 of the 2025 RTIP.

Finding: The regional emissions analyses for the 2025 RTIP through Amendment No. 8 are consistent with the emissions analyses for the 2021 Regional Plan.

Finding: The proposed amendment does not reflect a change in the design, concept, or scope of the projects or the conformity analysis years as modeled for the regional emissions analysis of the 2021 Regional Plan and the 2025 RTIP, as amended.

Finding: The 2025 RTIP, including Amendment No. 8, remains in conformance with the applicable State Implementation Plan³ (SIP).

Timely Implementation of TCM Test

Finding: The TCMs, established as Transportation Tactics in the 1982 SIP, have been fully implemented and Amendment No. 8 continues to fund the four TCMs, which include: (1) ridesharing; (2) transit improvements; (3) traffic flow improvements; and (4) bicycle facilities and programs.

Inter-Agency Consultation and Public Involvement Test

Finding: The 2025 RTIP complies with all federal and state requirements for public involvement by following the strategies described in Board Policy No. 025: Public Participation Plan Policy. Amendment No. 8 was posted for a 15-day public comment period from June 27, 2025, through July 17, 2025.

Finding: The SANDAG Conformity Working Group (CWG), including members from the San Diego County Air Pollution Control District, Caltrans, California Air Resources Board, SANDAG, U.S. DOT, and U.S. EPA, serve as a forum to meet the federal and state requirements for interagency consultation for the 2025 RTIP. All exempt projects in Amendment No. 8 were submitted to the CWG on July 7, 2025, for its review and members concurred with the exempt categorization.

¹ 23 Code of Federal Regulation (CFR) Part 450, subpart C

² 40 CFR part 93, subpart A

³ 2020 Plan for Attaining the National Ozone Standards Plan for San Diego County, which were found adequate for transportation conformity purposes by the U.S. Environmental Protection Agency effective October 2021

Hi Vaik,

The SAN114 grouped listing has been updated to provide additional clarity around the scope for projects SAN30A and SAN318. The updated listing will be included when the documents are uploaded to CTIPS.

Hi Vaik,

Thank you for your review and comments. Please see my [answers/questions](#) below:

Grouped Projects for Rehabilitation or Reconstruction of Track Structures, Track,... (MPO ID: SAN114): Couple of individual project's scope is not sufficiently included.

(a) Construct a special event platform at the Del Mar Fairgrounds (SAN 30A): Does the project scope clearly fall in the group listing? If not, this may be separate project or find the correct group listing.

This project is in the current SAN114 listing as it is a portion of a larger LOSSAN Corridor project, SAN30 – San Dieguito Lagoon Double Track.

I was able to find some additional information on the Special Events Platform. Can I update the description for clarification purposes using some of the following information:

From project **fact sheet**:

“The new special events platform will be located on the west side of the fairgrounds to reduce vehicular traffic congestion and provide improved transit options for special event attendees. The platform, upper passenger connection ramps, and stairs will be constructed within the existing North County Transit District (NCTD) owned railroad right-of-way. The platform will accommodate trains with as many as ten cars and is expected to reduce traffic on local streets during special events.”

(b) Emergency stabilization of wall 508 and the slope beneath the wall (SAN 318): Scope should be clear to identify the location; public may not identify with the term “wall 508.”

Can I use some of the language below to update the scope for clarity?

“SANDAG will conduct emergency stabilization work on a portion of a retaining wall adjacent to the train tracks near the 4800 block of Santa Fe Street in Bay Ho. The retaining wall was built as part of the Elvira to Morena Double Track project along the Los Angeles-San Diego-San Luis Obispo (LOSSAN) Corridor.”

Thank you for asking. I would actually apply this comment to both, and expand it to any plan that includes so-called "active transportation". Our region is too large, and housing by workplaces is too expensive, for anything other than personal vehicles or mass transit options to be worth the land space the other options take off the table.

Please stop prioritizing bicycle travel, especially with dedicated lanes. Bicycles are the tools of the privileged few who can afford to take hours to commute or the even more privileged few who live extremely close to where they work. The lanes taken up by bike lanes would be much better used as dedicated bus lanes, HOV lanes, or regular traffic lanes. Please stop designing up to 50 percent of some streets for the 1%.
