TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

Background

TransNet is the half-cent sales tax for local transportation projects that was first approved by voters in 1988. In 2004, the San Diego voters renewed their commitment to the region's transportation improvement program by approving Proposition A, implemented through the Extension Ordinance, and continuing an existing half-cent transportation sales tax for an additional 40 years. Administered by the San Diego Association of Governments (SANDAG), the program has been instrumental in expanding the region's transportation system, reducing traffic congestion, and bringing critical transportation programs to life.

Scope of the Engagement

This engagement was to apply agreed-upon procedures in order to assist the Independent Taxpayer Oversight Committee (ITOC) and SANDAG in determining whether the recipients of *TransNet* funds were in compliance with the *TransNet* Ordinance and the *TransNet* Extension Ordinance for the year ended June 30, 2023. We performed the procedures in accordance with attestation standards established by the American Institute of Certified Public Accountants.

In accordance with SANDAG Board Policy No. 031, Rule #17, Section I, fiscal and compliance audit procedures are to be completed in a timely manner. The Policy recommends that the accountants issue a report of compliance results and present them to the ITOC.

The following are the major compliance components included in the scope of the procedures:

- *TransNet* and *TransNet* Extension Expenditures;
- Maintenance of Effort (MOE);
- SANDAG Board Policy No. 031, Rule 17, Section IV, Local Agency Balance Limitations (30% Rule);
- Local Street Improvements – Congestion Relief vs. Maintenance;
- Local Street Improvements – Maintenance Monitoring;
- Indirect Costs Allocated to Projects in the Regional Transportation Improvement Plan (RTIP);
- Regional Transportation Congestion Improvement Program (RTCIP); and
- Transit Operator Eligibility for Receipt of Funds.

Summary of all 8 criteria for the past three fiscal years are documented at Attachment A.

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

The procedures performed were approved by the ITOC prior to commencing fieldwork. The specific procedures performed and the results of those procedures are included in each of the draft reports for the recipient agencies. The reports may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of the reports and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes. Following approval of the procedures, we scheduled and performed our fieldwork during the months of September 2023 through December 2023.

Results of Procedures

TransNet and TransNet Extension Expenditures

As required by SANDAG Board Policy No. 031, each recipient agency is required to account for *TransNet* activities in a separate fund, or if an alternative approach is used, it must be approved by SANDAG. All recipient agencies complied with this requirement.

During our fieldwork, we obtained the following items:

- Trial balance including balance sheet and income statement;
- Detailed general ledger including revenue and expenditure details;
- Schedule A – Schedule of Status of Funds by Project; and
- Schedule B – Cumulative Schedule of Status of Funds by Project.

The objectives of the procedures were to ensure the following:

- Expenditures were allowable in accordance with the *TransNet* Ordinance and *TransNet* Extension Ordinance;
- Revenues were recorded and agreed to SANDAG's payment records;
- Interest income allocation methodology was reasonable;
- Explanations were obtained and disclosed for projects that had a negative balance; and
- Proper approvals were obtained for most inter-project transfers. Those that have not obtained approval are scheduled either for jurisdiction approval or RTIP approval prior to issuance of the final report.

Based upon the results of the procedures performed, all recipient agencies were in compliance with the revenue and expenditure requirements.

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

Maintenance of Effort (MOE)

In accordance with Section 8 of the *TransNet* Extension Ordinance, each recipient agency receiving revenues pursuant to Section 4(D) shall annually maintain, at a minimum, the same level of local discretionary funds expended for street and road purposes on average over the last three fiscal years (FY) completed prior to the operative date of the *TransNet* Extension Ordinance (FY 2001 through FY 2003), as was reported in the State Controller's Annual Report of Financial Transactions for Street and Roads, and as re-indexed in FY 2021.

During our fieldwork, we obtained the following items:

- From SANDAG, the current MOE requirements for each recipient agency subject to this requirement; and
- From the recipient agencies, Schedule 3 of the Annual Report of Financial Transactions for Streets and Roads.

Based upon the results of the procedures performed, all recipient agencies were in compliance with the MOE requirements for the year ended June 30, 2023. See Attachment B for a summary of compliance with the MOE requirements.

SANDAG Board Policy No. 031, Rule #17, Section IV, Local Agency Balance Limitations (30% Rule)

In accordance with the 30% Rule, a recipient agency that maintains a balance of more than 30 percent of its annual apportionment (after debt service payments) must use the remaining balance to fund projects. SANDAG will defer payment until the recipient agency's Director of Finance, or equivalent, submits a certification that the unused balance has fallen below the 30 percent threshold, and will remain below the threshold until such time that a new threshold is determined.

The objectives of the procedures were to ensure that the recipient agency's *TransNet* balance for those programs that receive funding from the annual apportionment (Local Streets and Roads, Local Street Improvements, and Transit Services) is not more than 30% of the recipient agency's current year annual apportionment (net of debt service payments).

In order to ensure compliance with the 30% Rule, we performed the following:

- Obtained the schedule of annual apportionments from SANDAG;
- Obtained and reviewed the balance of the programs that received annual allocations; and
- Compared the balance of the programs noted above to the apportionment schedule to ensure the excess fund balance did not exceed the 30% threshold.

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

Based upon the results of the procedures performed, all recipient agencies, were in compliance with the 30% Rule. See Attachment C for a summary of compliance with the 30% Rule.

Local Street Improvements – Congestion Relief vs. Maintenance

As specified in Section 2(C)(1) of the *TransNet* Extension Ordinance, at least 70% of the revenues provided for local street and road purposes should be used for congestion relief, and no more than 30% for maintenance. In order to ensure SANDAG is in compliance with the *TransNet* Extension Ordinance, we performed the following:

- Inquired and obtained source data used to calculate the Local Street Improvements Allocation Schedule in SANDAG's TTrak program (SANDAG's *TransNet* tracking program) and recalculated the total fund distribution per jurisdiction; and
- Reviewed the FY 2023 *TransNet* Streets and Road Fund Allocation Schedule and determined that at least 70% of the revenues provided for local street and road purposes were used for congestion relief purposes and that no more than 30% were used for maintenance purposes.

Based upon the results of the procedures performed, SANDAG was in compliance with the Local Street Improvement requirements. See Attachment D for the Local Street Improvement allocation between congestion relief and maintenance, by recipient agency.

Local Street Improvements: Maintenance Monitoring

At the request of ITOC, we documented the percentage of local street and road revenue cumulatively expended for maintenance. In accordance with the *TransNet* Extension Ordinance, the local jurisdictions receiving local street improvement funds may not spend more than 30% of cumulative funds for Maintenance purposes. All recipient agencies were in compliance with this requirement. Results of this procedure are located in Attachment E.

Indirect Costs Allocated to Projects in RTIP

We inquired of management whether indirect costs are allocated to the projects included in the RTIP. If so, we documented the indirect cost rate allocated and the basis of allocation. We documented whether the recipient agency's indirect cost plan had been reviewed by a federal or state agency, or audited by a certified public accounting firm. If not, then we documented the year the indirect cost plan was last updated, the year the methodology was last reviewed, and whether the methodology was reasonable. If indirect costs exceeded 10% of total *TransNet* expenditures, we documented an explanation. See Attachment F for the indirect costs allocated to the RTIP.

Regional Transportation Congestion Improvement Program (RTCIP)

In accordance with Section 9(A) of the *TransNet* Extension Ordinance and Expenditure Plan, each local agency in the San Diego region shall contribute a minimum of \$2,000, subject to an annual adjustment based upon an index, in exactions from the private sector, for each newly constructed

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

residential housing unit in that jurisdiction to the RTCIP. However, each jurisdiction may use their own fee schedule, as long as the fees are at a minimum the adjusted amount as approved by the SANDAG Board of Directors annually. The RTCIP revenue is to be used to construct improvements to the Regional Arterial System.

The objectives of the procedures were to ensure the following:

- Each recipient agency collected at least the minimum exaction fee of \$2,688.21 from each newly constructed residential housing unit;
- Documentation was submitted to the ITOC on a timely basis and proper approval was obtained for the exaction fee; and
- Expenditures were allowable in accordance with the *TransNet* Extension Ordinance and Expenditure Plan.

In order to ensure compliance with the *TransNet* Extension Ordinance, we performed the following:

- Obtained a detailed general ledger from the recipient agencies;
- Obtained the RTCIP approved schedule for collecting and/or contributing private sector exactions;
- Obtained the RTCIP schedule (Schedule C of the associated reports) including beginning balance, exactions collected, interest earned, expenditures, and ending balance;
- Verified that the exaction fee being collected was approved by the City Council or Board of Supervisors and is in compliance with the *TransNet* Extension Ordinance and SANDAG Board Policy No. 031; and
- Verified that expenditures, if any, complied with the *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Based upon the results of the procedures performed, all recipient agencies, with the exception of the Cities of Coronado, Del Mar, El Cajon, La Mesa, Solana Beach and County of San Diego were in compliance with the RTCIP requirements. See the Summary of Findings by Recipient Agency for further information.

Transit Operator Eligibility for Receipt of Funds

In accordance with the *TransNet* Extension Ordinance, in order for transit operators to maintain eligibility for receipt of funds, the operator must limit the increase in its total operating cost per revenue vehicle hour for bus or revenue vehicle mile for rail services from one fiscal year to the next,

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

TransNet and *TransNet* Extension Activities

Summary of Results

Year Ended June 30, 2023

to no more than the increase in the Consumer Price Index (CPI) for San Diego County over the same period.

In order to ensure compliance with the *TransNet* Extension Ordinance, we performed the following:

- Calculated the increase in operating cost per revenue vehicle hour for bus services and revenue vehicle mile for rail services between June 30, 2022 and June 30, 2023;
- Calculated the increase in the CPI for San Diego County between June 30, 2022 and June 30, 2023; and
- Compared the increase in total operating cost per revenue vehicle hour for bus services, and revenue vehicle mile for rail services, to the increase in the CPI.

Both North County Transit District (NCTD) and San Diego Metropolitan Transit System (MTS) are in compliance with both bus and rail operator portion of the eligibility requirements.

TransNet and TransNet Extension Activities

Summary of Results

Year Ended June 30, 2023

Summary of Findings by Recipient Agency

The following findings were identified during performance of the agreed-upon procedures.

<u>Recipient Agency</u>	<u>Finding</u>	<u>Management Response</u>
City of Coronado	Need to use approved exaction fee	In process of collecting
City of Del Mar	Need to use approved exaction fee	In process of collecting
City of El Cajon	Need to use approved exaction fee	In process of collecting
City of La Mesa	Need to use approved exaction fee	In process of collecting
County of San Diego	Need to use approved exaction fee	In process of collecting
City of Solana Beach	RTCIP funding not expended nor committed within seven years of collection	City Council approved to amend the 2023 RTIP list of projects and commit to spending RTCIP funds in fiscal years 2024 and 2025 and to revise the City's Capital Improvement Program budget for the Traffic Signal Upgrades Phase 1 project by substituting Gas Tax funding with RTCIP funding

Complete responses from the recipient agencies to the findings identified are included in the individual recipient agency reports.

CALTRANS

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the State of California Department of Transportation's (Caltrans') compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. Caltrans' management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by Caltrans with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and SANDAG Board Policy No. 031.
Results: No exceptions were noted as a result of our procedures.
2. We obtained from SANDAG the applicable approved RTIP.
Results: No exceptions were noted as a result of our procedures.
3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.
Results: No exceptions were noted as a result of our procedures.
4. We inquired about the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: Per discussion with Caltrans Management, *TransNet* revenues and expenditures are not recorded in a separate fund but are part of the State Transportation Fund set of accounts of Caltrans. Within the Caltrans State Transportation Fund set of accounts, separate subaccounts are maintained for *TransNet* by expenditure authorization and contributor number. This alternative approach to maintaining separate accountability is allowable per SANDAG Board Policy No. 031, Rule #6 if submitted to SANDAG for concurrence. SANDAG has accepted Caltrans' alternative approach.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: We identified the following variance between the *TransNet* revenues recorded by Caltrans in comparison to the SANDAG *TransNet* payment schedule.

<i>TransNet</i> payments made by SANDAG	\$ 18,411,364
<i>TransNet</i> revenue recorded by Caltrans	<u>29,222,580</u>
Variance	<u>\$(10,811,216)</u>

The variance was a result of the following:

Paid by SANDAG in 2022 but received by Caltrans in 2023	\$ (13,596,500)
Paid by SANDAG in 2023 but received by Caltrans in 2024	2,784,057
Caltrans BPNS refund payment	<u>1,227</u>
Variance	<u>\$(10,811,216)</u>

- e. We identified the interest income reported for the fiscal year.
 - i. We reviewed the interest income reported on Schedule A and agreed to the *TransNet* general ledger.

Results: This procedure is not applicable as there was no interest income reported on Schedule A.
 - ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: In accordance with the Governor’s budget, Caltrans has no authority to disburse funds deposited in the State Highway Account, as that money is defined for a special purpose through the legislative process. An absence of such authority means that Caltrans cannot disburse funds and the Department of Finance has no authority to pay interest on advance deposits. SANDAG has accepted this practice in the past, thus no exceptions were noted as a result of our procedures.
- f. We identified the total *TransNet* expenditures for the fiscal year.
 - i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency’s general ledger.

Results: No exceptions were noted as a result of our procedures.
 - ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: Caltrans recorded total *TransNet* expenditures in the amount of \$18,325,110 (prior to the adjustments being netted). We selected \$6,713,960 (36.64%) for testing. No exceptions were noted as a result of our procedures.
 - iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e., payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- vi. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a federal or state agency or audited by an independent certified public accounting firm (CPA).

Results: Indirect costs are allocated to RTIP projects at a rate of 46.73% of direct labor costs from 7/1/2022 - 12/31/2022 and a rate of 64.08% of direct labor costs from 1/1/2023 to 6/30/2023 associated with each project when the contributor is considered a self-help county. As of July 1, 2020, SB 848 was enacted which limits the ICRP rates for self-help counties which was not extended and expired on 1/1/2023. Caltrans' indirect cost plan has been reviewed by the State of California Department of Finance and the Federal Highway Administration. The indirect cost plan is reviewed and updated by Caltrans on an annual basis. Caltrans allocated a total of \$1,469,111 of indirect costs in the RTIP resulting in 8.02% of indirect costs compared to total *TransNet* expenditures. Caltrans' methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was presented that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed project balances requiring movement to a *TransNet* eligible project.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding is available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that included when the project will be completed.

Results: CAL278, SAN73, SAN73A, V-18 and 1200100 had no activity over the past two years. No exceptions were noted as a result of our procedures.

- k. We obtained approval from SANDAG staff for reason of inactivity.

Results: SANDAG approved the inactive projects on February 6, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds from one project to another.

- m. We reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as Caltrans had no non-*TransNet* activity for the fiscal year.

- 7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief versus maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30, 2023 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments in Schedule A.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B completed section by category.

Results: No exceptions were noted as a result of our procedures.

- 8. If applicable, we compared long-term debt information reported on Schedule A to the schedule to longer-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there was no long-term debt outstanding as of June 30, 2023.

- 9. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no findings and recommendations noted in the prior year report.

- 10. We proposed current fiscal year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the findings.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the fiscal year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on Caltrans's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of Caltrans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

June 10, 2024

GLOSSARY OF TERMS

“Current Fiscal Year” means the fiscal period of July 1, 2022, through June 30, 2023.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including Caltrans, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“TransNet Extension Ordinance” means the 2004 Proposition A.

“TransNet Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

SCHEDULE A

	Total <i>TransNet</i> Extension	\$ (18,284,238)	\$ 29,222,581	\$ -	\$ 2,195,105	\$ -	\$ 13,133,448	
	Total <i>TransNet</i> and <i>TransNet</i> Extension	\$ (18,270,374)	\$ 29,222,581	\$ -	\$ 2,195,105	\$ -	\$ 13,147,312	(j)

Notes:

- (a) All projects related to CAL 26 in the TransNet Highway section are still in the final vouchering process and the goal is to complete it by FY 2025.
- (b) Negative ending balance will be removed with the next invoice to SANDAG in FY 2024.
- (c) Adjustments are due to rounding.
- (d) New project added to the 2023 AUP.
- (e) This project is completed.
- (f) CAL 67 was moved to the completed section on Schedule B in the 2021 AUP. This 2023 AUP removes it from the completed section as it has been restarted and moved back to Schedule A and B. It is no longer included in the completed projects section of the AUP.
- (g) In FY 2022 Caltrans over expended the TN MC funds for the Design phase which was not corrected until FY 2023. FY 2023 actual expenditures are \$900 and the adjustment was removing \$17,843 of FY22 expenditures. Resulting in a positive balance of \$16,943 in expenditures. Project is funded with Federal AC and TN MC funds. FY23 actual expenditures are 17M. Federal funds became available in the 2023 FY and TN MC expenditures (over \$24M) were moved to federal funds resulting in a netted positive balance of \$7M in expenditures.
- (h) MPO ID SAN 156 is not completed yet even though these funds have not had any activity for a while. This project can not final voucher until the entire project is completed. The goal is for the project to complete in FY 2025 and final vouchering completed in FY 2026.
- (i) Total project expenditures incurred for FY23, net of adjustments, are \$18,325,110.

CITY OF CARLSBAD, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Carlsbad, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$736,926. We selected \$234,406 (31.81%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City allocates indirect costs to capital projects by using the employee's direct cost charged to a project and multiplying it by an allocation percentage of 116%, which was determined by a consultant. The City allocated a total of \$104,718 of indirect costs in the RTIP, resulting in 14.21% of indirect costs compared to total *TransNet* expenditures. In FY23, the City declared a local emergency which accelerated many of the City's roadway projects, notably *TransNet* projects. City Council directed focus to push all projects in design to construction. For these reasons, additional engineers from other groups worked on *TransNet* projects to accelerate projects to construction phase. Carlsbad declared a state of emergency in August 2022 and it only recently ended in FY24. Additionally, many of the City's projects entered the construction phase this year requiring more engineer oversight. The City's indirect cost plan has not been reviewed by a cognizant agency or audited by an independent CPA but has been approved by management and City Council during FY21. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There were 3 projects (CB17, CB34 and CB35) that have been inactive over the past two years. The City indicated that, "Projects have been completed and closed out. The remaining cash on hand for the project will be requested to be transferred to another current congestion relief project via a city council resolution. The city expects to have this resolution approved by June 2024." The status of the projects has been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 19, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City did not have any non-*TransNet* activity during FY23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and

environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

- 8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$4,923,643
Less: debt service payment	_____ -
Net estimated apportionment	4,923,643
30% base	_____ 30%
Fiscal year 2023 30% threshold	<u>1,477,093</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	333,763
Maintenance fund balance	<u>319,634</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>653,397</u>
Fund balance under apportionment	<u>\$ 823,696</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held <u>by City</u>	Funds Held <u>by SANDAG</u>	<u>Total</u>
Congestion Relief	\$333,763	\$13,251,822	\$13,585,585
Maintenance	<u>319,634</u>	<u>14,633,385</u>	<u>14,953,019</u>
Totals	<u>\$653,397</u>	<u>\$27,885,207</u>	<u>\$28,538,604</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 2.29% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$26,229,557	\$11,282,709	\$37,512,266
Maintenance	1,579,825	13,815,043	15,394,868
Interest	<u>115,526</u>	<u>2,787,455</u>	<u>2,902,981</u>
Total local street and road revenue	<u>\$27,924,908</u>	<u>\$27,885,207</u>	<u>\$55,810,115</u>
30% of total local street and road revenue			\$16,743,035
Less maintenance expenditures incurred to date			<u>(1,276,999)</u>
Available maintenance funds			<u>\$15,466,036</u>
Cumulative percentage expended for maintenance			<u>2.29%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller's Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller's Office; or
 - ii. We obtained notice from the State Controller's Office that the changes will be included in the subsequent year's Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$13,747,010
Less MOE base year requirement	<u>(6,746,377)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 7,000,633</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.
- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.
- Results: No exceptions were noted as a result of our procedures.
- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.
- Results: No exceptions were noted as a result of our procedures.
- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.
- Results: No exceptions were noted as a result of our procedures.
- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.
- Results: No exceptions were noted as a result of our procedures.
- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.
- Results: The City recorded total RTCIP expenditures in the amount of \$388,094. We selected \$126,660 (32.64%) for testing. No exceptions were noted as a result of our procedures.
- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.
- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as RCTIP payroll amounts did not exceed the 20% threshold during FY23.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 27, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"TransNet Extension Ordinance" means the 2004 Proposition A.

"TransNet Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

Note:

- (a) Adjustment is due to \$303,341 of expenditures being recorded in error from FY20 - FY22.
- (b) The city incorrectly reported expenditures related to project CB46 from fiscal years 2020, 2021 and 2022 and attributed these in the RTCIP fund as expenditures using project year ended June 30, 2018 funds. This project is funded with TransNet Local and other city local funding and is not an RTCIP project. The city is adjusting out these expenditures and adding back associated interest income that should have been earned as an adjustment.

CITY OF CHULA VISTA, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Chula Vista, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$3,051,452. We selected \$1,054,829 (34.57%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: The City recorded total *TransNet* payroll expenditures in the amount of \$1,629,036, which represented 53.39% of total expenditures. We selected one pay period and five employees for testing. No exceptions were noted as a result of our procedures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City allocates costs out of their various departments and into capital projects by using the Engineering time directly charged to a project and multiplying the hours worked by the City's fully burdened hourly rate. Department Overhead Rates range from 6.10% to 42.00%, with an average rate of 18.91%. Total staff time costs (which includes both direct and indirect costs) included within projects on the RTIP were \$1,629,036. Total estimated indirect costs were \$259,062, or 8.49% of total *TransNet* expenditures. In order to verify that the City was allocating their indirect cost appropriately, we tested five job positions to ensure that the City was recording their direct and indirect costs properly according to internal project rates. The City's written indirect cost plan was last updated during FY 2021. The plan is approved by Management or another individual within the City. The City's indirect cost plan has not been reviewed by a federal or state agency or audited by an independent CPA firm. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in

accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There were three projects that have been inactive over the past two years: CIP number STM0393 of MPO ID CHV48, CIP number STL0445 of MPO ID CHV06, and CIP number STM0380 of MPO ID CHV33. The City indicated that each of these phases of their respective projects had been completed or is in the process of being closed out, and that any excess funding will be transferred to projects within the same MPO ID in Fiscal Year 2024.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on December 6, 2023.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds which required a staff report or resolution.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity for the fiscal year.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received,

expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$9,403,536
Less: debt service payment	<u> -</u>
Net estimated apportionment	9,403,536
30% base	<u> 30%</u>
Fiscal year 2023 30% threshold	<u>2,821,061</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	391,693
Maintenance fund balance	<u>88,536</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>480,229</u>
Fund balance under apportionment	<u>\$3,301,290</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held <u>by City</u>	Funds Held <u>by SANDAG</u>	<u>Total</u>
Congestion Relief	\$(391,693)	\$14,922,458	\$14,530,765
Maintenance	<u>(88,536)</u>	<u>8,524,022</u>	<u>8,435,486</u>
Totals	<u>\$(480,229)</u>	<u>\$23,446,480</u>	<u>\$22,966,251</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 21.67% of cumulative local street and road revenue for maintenance as follows:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$51,791,177	\$13,512,662	\$65,303,839
Maintenance	20,693,567	7,934,687	28,628,254
Interest	<u>80,858</u>	<u>1,999,131</u>	<u>2,079,989</u>
Total local street and road revenue	<u>\$72,565,602</u>	<u>\$23,446,480</u>	<u>\$96,012,082</u>
30% of total local street and road revenue			\$28,803,625
Less maintenance expenditures incurred to date			<u>(20,805,724)</u>
Available maintenance funds			<u>\$7,997,901</u>
Cumulative percentage expended for maintenance			<u>21.67%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller's Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller's Office; or
 - ii. We obtained notice from the State Controller's Office that the changes will be included in the subsequent year's Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$4,585,958
Less MOE base year requirement	<u>(4,387,018)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 198,940</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.
- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.
- Results: No exceptions were noted as a result of our procedures.
- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.
- Results: No exceptions were noted as a result of our procedures.
- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.
- Results: No exceptions were noted as a result of our procedures.
- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.
- Results: No exceptions were noted as a result of our procedures.
- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.
- Results: The City recorded total RTCIP expenditures in the amount of \$45,506. We selected \$6,562 (14.42%) for testing. No exceptions noted as a result of our procedures.
- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.
- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures during FY23.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on November 15, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF CORONADO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Coronado, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: This procedure is not applicable as there were no footnotes required in Schedule A in FY 23.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: This procedure is not applicable as the City did not have interest income reported on Schedule A in FY 23.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.
- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.
- Results: No exceptions were noted as a result of our procedures.
- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).
- Results: The City recorded total *TransNet* expenditure in the amount of \$131,400. We selected \$90,958 (69.22%) for testing. No exceptions were noted as a result of our procedures.
- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.
- Results: No exceptions were noted as a result of our procedures.
- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.
- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.
- Results: No exceptions were noted as a result of our procedures.
- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.
- Results: This procedure is not applicable as there were no payroll expenditures identified during FY 23.
- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect

cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated during FY 23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments presented on Schedule A in FY 23.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: This procedure is not applicable as there were no projects completed in the current or previous fiscal year.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no projects completed in the current or previous fiscal year.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: This procedure is not applicable as there were no projects with a negative ending balance presented on Schedule A in FY 23.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: This procedure is not applicable as there were no projects with a negative ending balance presented on Schedule A in FY 23.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects which had no activity over the past two years.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects which had no activity over the past two years.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity included within Schedule A in FY23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments presented on Schedule A in FY 23.

- c. We identified any completed projects reported in the prior year’s Schedule A and ensured that all completed projects were reported in the current year’s Schedule B by category.

Results: This procedure is not applicable as there were no projects completed on Schedule A in FY 23.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$808,934
Less: debt service payment	<u> -</u>
Net estimated apportionment	808,934
30% base	<u> 30%</u>
Fiscal year 2023 30% threshold	<u>242,680</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(107,341)
Maintenance fund balance	<u> -</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>107,341</u>
Fund balance under apportionment	<u>\$135,339</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are noted on the following page:

	<u>Funds Held by City</u>	<u>Funds Held by SANDAG</u>	<u>Total</u>
Congestion Relief	\$107,341	\$253,503	\$360,844
Maintenance	<u>-</u>	<u>2,616,982</u>	<u>2,616,982</u>
Totals	<u>\$107,341</u>	<u>\$2,870,485</u>	<u>\$2,977,826</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 3.89% of cumulative local street and road revenue for maintenance as indicated as follows:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$6,575,318	\$49,332	\$6,624,650
Maintenance	382,949	2,538,972	2,921,921
Interest	<u>21,958</u>	<u>282,181</u>	<u>304,139</u>
Total local street and road revenue	<u>\$6,980,225</u>	<u>\$2,870,485</u>	<u>\$9,850,710</u>
30% of total local street and road revenue			\$2,955,213
Less maintenance expenditures incurred to date			<u>(383,272)</u>
Available maintenance funds			<u>\$2,571,941</u>
Cumulative percentage expended for maintenance			<u>3.89%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.

- a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$1,627,273
Less MOE base year requirement	<u>(984,388)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 642,885</u>

- 13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.
 - a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.
 - b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.
 - c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.
 - i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: The City did not consistently collect the required exaction fee amount of \$2,688.21. For two permits issued, the exaction fee collected was based upon the prior year's exaction fee amount. This resulted in an under-collection of the exaction fee in the amount of \$646. See Finding 1 in the Findings and Recommendations section of this report.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no RTCIP payroll expenditures for the fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs.

We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 31, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The City had one prior year finding relating to the City not consistently collecting the required exaction fee amount of \$2,635.50. For two permits issued, the exaction fee collected was based upon the prior year's exaction fee amount. Per further discussion with the City, it was determined that the City will transfer funds from their budget to cover the remaining fees from FY22.

16. We proposed current year's findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See the Findings and Recommendations section of this report.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF CORONADO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee

Per review of the City’s exaction fee collections for the year ended June 30, 2023, the City did not consistently collect the required exaction fee amount of \$2,688.21. For two permits issued, the exaction fee collected was based upon the prior year’s exaction fee amount. This resulted in an under-collection of the exaction fee in the amount of \$646.34 as follows:

<u>Permit Number</u>	<u>Audited Amount</u>	<u>Amount Required</u>	<u>Variance</u>
NC2107-001	\$2,668.21	\$2,688.21	\$20.00
Various	<u>15,502.92</u>	<u>16,129.26</u>	<u>626.34</u>
Totals	<u>\$18,171.13</u>	<u>\$18,817.47</u>	<u>\$646.34</u>

SANDAG Board recommendations as of February 9, 2022 and subsequent approval states, in part:

“...the Board of Directors will be asked to approve a 2% adjustment to the Regional Transportation Congestion Improvement Program (RTCIP) raising the minimum fee from \$2,635.50 to \$2,688.21 beginning July 1, 2022.”

Additionally, Board Policy 031, Rule #23 B.5 states in part:

“...if, however, the audit establishes a local agency did not provide its full monetary contribution under the RTCIP and the local agency does not cure defects of which it was notified by the time the audit is finalized and adopted by the ITOC, then the local agency will have forfeited its Section 4(D)(1) contribution. Any amount paid to the local agency in the fiscal year that was the subject of the audit will be retroactively owed to the Commission...”

Recommendation

We recommend that the City recover the under-collection of exaction fees in the amount of \$646.34 for FY23. Additionally, we recommend that the City update and collect the proper exaction fees on a yearly basis to be in compliance with the RTCIP fees.

CITY OF CORONADO, CALIFORNIA

Report on Agreed-Upon Procedures

Findings and Recommendations (Continued)

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee (Continued)

Management Response

Management agrees with the finding, and we are evaluating additional controls to prevent errors in collections in the future. During the review, we discovered that there was an issue with the permitting system and we are working on a remedy to correct the problem. City Departments are continuing to work together to improve controls and have reinforced with staff the need to review the correctness of fees before finalizing permits. Additionally, Finance will continue to work with permitting staff to identify gaps and put controls in place.

During the fiscal year 2024 the City will make every effort to collect and record the under-collected amounts of the exaction fees.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

SCHEDULE A

CITY OF CORONADO, CALIFORNIA
TransNet Extension Activities
 Schedule of Status of Funds by Project
 Year Ended June 30, 2023

MPO ID	CIP Number	Project Name	Project Status July 1, 2022	Funds Received	Interest Income	Project Expenditures	City Adjustments	Project Status June 30, 2023

CITY OF DEL MAR, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Del Mar, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: This procedure is not applicable as the City did not have any *TransNet* expenditures recorded during FY23.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: This procedure is not applicable as the City did not have any *TransNet* expenditures recorded during FY23.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: This procedure is not applicable as the City did not have any *TransNet* expenditures recorded during FY23.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: This procedure is not applicable as the City did not have any *TransNet* expenditures recorded during FY23.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not have any *TransNet* expenditures recorded during FY23.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as indirect costs were not allocated to the projects included in the RTIP.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments during FY 23.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no transfers during FY23.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: This procedure is not applicable as there were no projects with a negative ending balance during FY 23.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: This procedure is not applicable as there were no projects with a negative ending balance during FY 23.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are two projects that have been inactive over the past two years. The City indicated for DM02 project that "The City of Del Mar has secured other local funding sources that will be utilized first before using TransNet Funds. It is anticipated that the other available local funds will be exhausted during the construction phase of the project. The construction phase of the project is projected to begin in December 2026. It is not anticipated that TransNet funds will be used for this project prior to that date." They also indicated that, "The City is in process of completing a street assessment and will be going out to bid in FY24 for Resurfacing and Drainage maintenance project (DM01)." The status of the projects has been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on October 24, 2023.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City did not have non-*TransNet* activity for the fiscal year.

- 7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments in Schedule A.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: This procedure is not applicable as there were no completed projects in the prior year's Schedule A.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$ 274,021
Less: debt service payment	<u>(131,959)</u>
Net estimated apportionment	142,062
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>42,619</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(3,285)
Maintenance fund balance	<u>-</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>3,285</u>
Fund balance under apportionment	<u>\$ 39,334</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as indicated as follows:

	<u>Funds Held by City</u>	<u>Funds Held by SANDAG</u>	<u>Total</u>
Congestion Relief	\$3,285	\$(127,483)	\$(124,198)
Maintenance	<u> -</u>	<u> 570,946</u>	<u> 570,946</u>
Totals	<u>\$3,285</u>	<u>\$ 443,463</u>	<u>\$ 446,748</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 5.40% of cumulative local street and road revenue for maintenance indicated as follows:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$6,614,166	\$(156,126)	\$6,458,040
Maintenance	402,626	559,707	962,333
Interest	<u> 8,378</u>	<u> 39,882</u>	<u> 48,260</u>
Total local street and road revenue	<u>\$7,025,170</u>	<u>\$ 443,463</u>	<u>\$7,468,633</u>
30% of total local street and road revenue			\$ 2,240,590
Less maintenance expenditures incurred to date			<u>(403,270)</u>
Available maintenance funds			<u>\$1,837,320</u>
Cumulative percentage expended for maintenance			<u>5.40%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below.

	<u>Balance</u> <u>July 1, 2022</u>	<u>Principal</u> <u>Payments</u>	<u>Balance</u> <u>June 30, 2023</u>	<u>Interest and</u> <u>Other</u> <u>Adjustments</u>
2014 Series A Bonds	\$ 140,000	\$ 70,000	\$ 70,000	\$ 4,783
2019 Series A Bonds	855,000	-	855,000	26,909
2021 Series A Bonds	1,610,000	-	1,610,000	31,572

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement for the year ended June 30, 2023. The City had an outstanding unmet MOE requirement for the prior year in the amount of \$72,462 for Street & Roads. In the City’s response to the prior year finding, the City had requested and was subsequently granted a three-year extension in the time permitted to meet the MOE threshold. MOE activity for the year ended June 30, 2023, is summarized on the following page:

	<u>Street & Roads</u>	<u>Specialized Transportation</u>	<u>Total</u>
Current year local discretionary expenditures	\$917,285	\$60,000	\$977,285
Less MOE base year requirement	(602,608)	(27,766)	(630,374)
Less prior year shortfall	<u>(72,462)</u>	<u>-</u>	<u>(72,462)</u>
Excess (shortfall) MOE for the year ended June 30, 2023	<u>\$242,215</u>	<u>\$32,234</u>	<u>\$274,449</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: The City is not in compliance with the RTCIP exaction fee requirement. See Finding 1 in the Findings and Recommendation section of the report.

ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures identified during FY 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 10, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The prior year's report included a finding that the City of Del Mar did not meet its MOE requirement for Streets & Roads and had a shortfall in the amount of \$72,462. Our testing of the MOE requirement for the year ended June 30, 2023 identified that the City was able to resolve the shortfall. As such, the finding will be removed.

- 16. We proposed current year's findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See Findings and Recommendations section of this report.

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF DEL MAR, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee

Per review of the City’s exaction fee collections for the year ended June 30, 2023, the City did not consistently collect the required exaction fee amount of \$2,688.21. There were two permits issued where the exaction fees collected were based on FY22 fees in the amount of \$2,635.50. This resulted in an under-collection of the exaction fees in the amount of \$474.39 as follows:

<u>Project #</u>	<u>Account #</u>	<u>Units</u>	<u>Amount Required</u>	<u>Amount Charged</u>	<u>Variance</u>
DRB20-013	B45.4700.4727	1	\$ 2,688.21	\$ 2,635.50	\$ 52.71
DRB18-008	B45.4700.4727	8	21,505.68	21,084.00	421.68
	Totals	9	<u>\$24,193.89</u>	<u>\$23,719.50</u>	<u>\$474.39</u>

SANDAG Board recommendations as of February 9, 2022 and subsequent approval states, in part:

“...the Board of Directors is asked to approve a 2 percent adjustment to the Regional Transportation Congestion Improvement Program (RTCIP) raising the minimum fee from \$2,635.50 to \$2,688.21 beginning July 1, 2022.”

Additionally, Board Policy 031, Rule #23 B.5 states in part:

“...if, however, the audit establishes a local agency did not provide its full monetary contribution under the RTCIP and the local agency does not cure defects of which it was notified by the time the audit is finalized and adopted by the ITOC, then the local agency will have forfeited its Section 4(D)(1) contribution. Any amount paid to the local agency in the fiscal year that was the subject of the audit will be retroactively owed to the Commission...”

Recommendation

We recommend that the City recover the under-collection of exaction fees in the amount of \$474.39. Additionally, we recommend that the City update and collect the proper exaction on a yearly basis to be in compliance with the RTCIP fees.

Findings and Recommendations
(Continued)

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee (Continued)

Management Response

The City inadvertently overlooked updating the new exaction fees on the permitting system. Two permits were processed and were charged the old RTCIP exaction fees. Upon discovery, this was immediately corrected, and an audit of other permits processed was conducted. No other errors were found. The Community Development department and the Finance division have implemented additional procedures to ensure that exaction fees are updated as needed per SANDAG updates. The Community Development department will work on collecting the undercharged fees.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) The City of Del Mar has secured other local funding sources that will be utilized first before using TransNet Funds. It is anticipated that the other available local funds will be exhausted during the construction phase of the project. The construction phase of the project is projected to begin in December 2026. It is not anticipated that TransNet funds will be used for this project prior to that date.
- (b) The City is in process of completing a street assessment and will be going out to bid in FY24 for Resurfacing and Drainage maintenance project (DM01).

CITY OF EL CAJON, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of El Cajon, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: This procedure is not applicable as interest income was not reported on Schedule A.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: This procedure is not applicable as interest income was not reported.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$1,059,346. We selected \$375,347 (35.43%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditure did not exceed 20% of the total dollar amount of expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City distributes indirect costs in two ways. For operating departments, an allocation for each cost pool is made following a reasonable allocation basis. For irregularly timed or project work, such as Capital Improvement Projects, indirect costs are applied using Fully Burdened Rates (FBR). FBRs are calculated for each job classification. Since job classifications may exist in many budgetary units, an average of each unit's hourly rate is calculated and used as the FBR for that classification. This average hourly rate is weighted by the portion of full time equivalent (FTE) employees in that unit. FBRs are used to assign indirect costs where they are not allocated. The City's indirect cost rates were last updated and approved on October 19, 2020 by the City's Finance Department. The dollar amount of the indirect costs charged to the *TransNet* program was \$9,209 resulting in 0.87% of indirect costs compared to total *TransNet* expenditures. The City's indirect cost plan has not been reviewed by a cognizant agency or audited by an independent certified public accounting firm. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are two projects that have been inactive over the past two years. The City indicated that for EL06 CIP 203690PWCP and 203691PWCP "These are active City projects funded by multiple MPO ID funding sources. Activity funded by this MPO ID was not present during this phase of the project." The status of the projects has been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 25, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there were no non-*TransNet* activity.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances

at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

- 8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$3,530,412
Less: debt service payment	_____ -
Net estimated apportionment	3,530,412
30% base	_____ 30%
Fiscal year 2023 30% threshold	<u>1,059,124</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(681,672)
Maintenance fund balance	<u>(596,142)</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(1,277,814)</u>
Fund balance under apportionment	<u>\$ 2,336,938</u>

- 9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$ (681,672)	\$ 5,865,738	\$5,184,066
Maintenance	<u>(596,142)</u>	<u>5,313,368</u>	<u>4,717,226</u>
Totals	<u>\$(1,277,814)</u>	<u>\$11,179,106</u>	<u>\$9,901,292</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 17.77% of cumulative local street and road revenue for maintenance as indicated as follows:

	City	SANDAG	Total
Congestion relief	\$21,128,688	\$ 5,325,302	\$26,453,990
Maintenance	6,256,364	5,093,688	11,350,052
Interest	<u>9,785</u>	<u>760,116</u>	<u>769,901</u>
Total local street and road revenue	<u>\$27,394,837</u>	<u>\$11,179,106</u>	<u>\$38,573,943</u>
30% of total local street and road revenue			\$ 11,572,183
Less maintenance expenditures incurred to date			<u>(6,855,442)</u>
Available maintenance funds			<u>\$ 4,716,741</u>
Cumulative percentage expended for maintenance			<u>17.77%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.

- a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller's Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller's Office; or
 - ii. We obtained notice from the State Controller's Office that the changes will be included in the subsequent year's Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$2,463,072
Less MOE base year requirement	<u>(1,849,773)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 613,299</u>

- 13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.
 - a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.
 - b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.
 - c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.
 - i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: The City did not collect the correct exaction fee for one permit issued. See the Findings and Recommendation section of the report.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$65,867. We selected \$45,115 (68.49%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures for fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the

TransNet Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 27, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See the Findings and Recommendations section of this report.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee

Per review of the City’s exaction fee collections for the year ended June 30, 2023, the City did not consistently collect the required exaction fee amount of \$2,688.21. For one permit issued, the exaction fee collected was based upon the prior year’s exaction fee amount. This resulted in an under-collection of the exaction fee in the amount of \$52.71 as follows:

<u>Permit Number</u>	<u>Amount Charged</u>	<u>Amount Required</u>	<u>Variance</u>
BP-2020-0599	\$2,635.50	\$2,688.21	\$52.71

SANDAG Board recommendations as of February 9, 2022 and subsequent approval states, in part:

“...the Board of Directors will be asked to approve a 2% adjustment to the Regional Transportation Congestion Improvement Program (RTCIP) raising the minimum fee from \$2,635.50 to \$2,688.21 beginning July 1, 2022.”

Additionally, Board Policy 031, Rule #23 B.5 states in part:

“...if, however, the audit establishes a local agency did not provide its full monetary contribution under the RTCIP and the local agency does not cure defects of which it was notified by the time the audit is finalized and adopted by the ITOC, then the local agency will have forfeited its Section 4(D)(1) contribution. Any amount paid to the local agency in the fiscal year that was the subject of the audit will be retroactively owed to the Commission...”

Recommendation

We recommend that the City recover the under-collection of exaction fees in the amount of \$52.71 for FY23. Additionally, we recommend that the City update and collect the proper exaction fees on a yearly basis to be in compliance with the RTCIP fees.

Management Response

Permit BP-2020-0599 was issued in FY21 at \$2,583.82 and billed for the FY22-FY23 change of \$51.68. However, it appears that the FY21-FY22 change (\$52.71) was not applied. Therefore, the City will issue an invoice for that amount prior to the completion of the project.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF ENCINITAS, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Encinitas, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$1,177,737. We selected \$600,002 (50.95%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures were not allocated to projects on the RTIP for the fiscal year ended June 30, 2023.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet*

program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated to projects included within the RTIP for the fiscal year ended June 30, 2023.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed projects which ended with a positive balance.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years.
 - k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as the City did not have projects with no activity for the past two years on Schedule A.
 - l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.
 - m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there were no non-*TransNet* projects included within Schedule A.
7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.
 - a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.
 - b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.
 - c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$2,427,517
Less: debt service payment	<u>-</u>
Net estimated apportionment	2,427,517
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>728,255</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(142,498)
Maintenance fund balance	<u>-</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>142,498</u>
Fund balance under apportionment	<u>\$585,757</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$142,498	\$(4,894,854)	\$(4,752,356)
Maintenance	<u>-</u>	<u>7,309,672</u>	<u>7,309,672</u>
Totals	<u>\$142,498</u>	<u>\$2,414,818</u>	<u>\$2,557,316</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 3.85% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$25,442,874	\$(5,490,521)	\$19,952,353
Maintenance	1,117,046	7,072,628	8,189,674
Interest	<u>55,210</u>	<u>832,711</u>	<u>887,921</u>
Total local street and road revenue	<u>\$26,615,130</u>	<u>\$2,414,818</u>	<u>\$29,029,948</u>
30% of total local street and road revenue			\$8,708,984
Less maintenance expenditures incurred to date			<u>(1,117,046)</u>
Available maintenance funds			<u>\$7,591,938</u>
Cumulative percentage expended for maintenance			<u>3.85%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no commercial paper or bonds outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;

- iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$11,629,625
Less MOE base year requirement	<u>(2,279,925)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 9,349,700</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: This procedure is not applicable as exaction fees were expended within seven years of collection.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$6,856. We selected \$6,856 (100%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable RTCIP expenditures for fiscal year ending June 30, 2023

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures were not allocated to RTCIP projects for the fiscal year ended June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration for the fiscal year ended June 30, 2023.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 6, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

SCHEDULE A

CITY OF ESCONDIDO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Escondido, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$3,781,078. We selected \$1,064,327 (28.15%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: The City recorded total *TransNet* payroll expenditures in the amount of \$903,845, which represented 23.90% of total expenditures. We selected one pay period and five employees for testing. No exceptions were noted as a result of our procedures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City allocates costs out of the various departments and into capital projects by using the engineering time directly charged to a project as the cost basis, and multiplying it by a set percentage associated with each department. The indirect cost percentage charged by departments varied between 0.53% and 55.00%. The City allocated a total of \$722,819 of indirect costs in the RTIP, resulting in 19.12% of indirect costs compared to total *TransNet* expenditures. Indirect costs exceeded 10% of total *TransNet* expenditures due to increase in payroll costs being included in the *TransNet* projects as well as decrease in total *TransNet* expenditures. The City's indirect cost plan was last updated in FY 2022 and approved by the Director of Finance. The City's indirect cost plan has not been reviewed by a cognizant agency or audited by an independent CPA. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in

accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed projects from that had been transferred.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are two projects that have been inactive over the past two years. The City indicated that, "ESC24 is delayed and the City is currently working with a developer for the improvements to be completed. If not, the City will complete these improvements. Estimated Completion Date is June 30, 2025. ESC38 has an encumbrance of \$7,071 open for a consulting agreement to perform pavement condition survey to gather current street distress data, update the Pavement Condition Index (PCI), and update the City's street inventory." The status of the projects has been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 19, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as they did not have non-*TransNet* activity in Schedule A.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: This procedure is not applicable as there were no completed projects reported in the prior year's Schedule A.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$5,313,988
Less: debt service payment	<u> -</u>
Net estimated apportionment	5,313,988
30% base	<u> 30%</u>
Fiscal year 2023 30% threshold	<u>1,594,196</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(586,625)
Maintenance fund balance	<u> 264,855</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(321,770)</u>
Fund balance under apportionment	<u>\$1,915,966</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held <u>by City</u>	Funds Held <u>by SANDAG</u>	<u>Total</u>
Congestion Relief	\$(586,625)	\$12,164,890	\$11,578,265
Maintenance	<u>264,855</u>	<u>1,456,227</u>	<u>1,721,082</u>
Totals	<u>\$(321,770)</u>	<u>\$13,621,117</u>	<u>\$13,299,347</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 26.19% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$32,734,097	\$10,808,281	\$43,542,378
Maintenance	16,808,711	867,141	17,675,852
Interest	<u>40,271</u>	<u>1,945,695</u>	<u>1,985,966</u>
Total local street and road revenue	<u>\$49,583,079</u>	<u>\$13,621,117</u>	<u>\$63,204,196</u>
30% of total local street and road revenue			\$ 18,961,259
Less maintenance expenditures incurred to date			<u>(16,555,765)</u>
Available maintenance funds			\$ <u>2,405,494</u>
Cumulative percentage expended for maintenance			<u>26.19%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller's Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller's Office; or
 - ii. We obtained notice from the State Controller's Office that the changes will be included in the subsequent year's Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$8,605,898
Less MOE base year requirement	<u>(3,352,190)</u>
Excess MOE for the year ended June 30, 2023	<u>\$5,253,708</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$2,037,913. We selected \$751,152 (36.86%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet,

and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll allocations did not exceed 20% of total expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 28, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The City had one prior year finding relating to not using the approved exaction fee. As of June 30, 2023, the City collected all of the \$878.56 of uncollected fees.

- 16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

June 10, 2024

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Escondido, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) Project is complete and funding to be reprogrammed in FY24.
- (b) Accrued expenses of \$210,056.14 were recorded for FY22 after audit completed.
- (c) More project expenditures incurred in June 2023 than anticipated, drawdowns were requested in FY 2024 for ESC04, ESC08, ESC37 and ESC39.
- (d) The project is delayed. The City is currently working with a developer. These improvements may be completed by the developer. If not, the City will complete these improvements. Estimated Completion Date: June 30, 2025.
- (e) The project has an encumbrance of \$7,071 open for consulting agreement to perform a pavement condition survey to gather current street distress data, update the Pavement Condition Index (PCI), and update the City's street inventory. Pending completion date.
- (f) Project is complete.
- (g) Grant Projects are on a reimbursement basis and 10% retention is held by SANDAG.

CITY OF IMPERIAL BEACH, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Imperial Beach, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: The City does not maintain a separate fund for *TransNet*. As a result, the City has to manually calculate interest income between *TransNet* and RTCIP funds. No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$815,154. We selected \$234,983 (28.83%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA).

Results: The procedure is not applicable as there were no indirect costs allocated to projects included in the RTIP during FY23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.
- Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years.
- k. We obtained approval from SANDAG staff for the reason of inactivity.
- Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years.
- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.
- Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.
- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.
- Results: No exceptions were noted as a result of our procedures.
7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.
- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.
- Results: No exceptions were noted as a result of our procedures.
- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.
- Results: No exceptions were noted as a result of our procedures.
- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.
- Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$ 930,454
Less: debt service payment	<u>(323,253)</u>
Net estimated apportionment	607,201
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>182,160</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(109,322)
Maintenance fund balance	<u>103</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(109,219)</u>
Fund balance under apportionment	<u>\$ 291,379</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$(109,322)	\$ 334,477	\$ 225,155
Maintenance	<u>103</u>	<u>218,830</u>	<u>218,933</u>
Totals	<u>\$(109,219)</u>	<u>\$ 553,307</u>	<u>\$ 444,088</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 23.63% of cumulative local street and road revenue for maintenance as indicated below:

	<u>Imperial</u> <u>Beach</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$ 9,386,315	\$ 284,752	\$ 9,671,067
Maintenance	3,084,902	198,870	3,283,772
Interest	<u>40,155</u>	<u>69,685</u>	<u>109,840</u>
Total local street and road revenue	<u>\$12,511,372</u>	<u>\$ 553,307</u>	<u>\$13,064,679</u>
30% of total local street and road revenue			\$ 3,919,404
Less maintenance expenditures incurred to date			<u>(3,086,604)</u>
Available maintenance funds			<u>\$ 832,800</u>
Cumulative percentage expended for maintenance			<u>23.63%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	<u>Balance</u> <u>July 1, 2022</u>	<u>Additions</u>	<u>Principal</u> <u>Payments</u>	<u>Balance</u> <u>June 30, 2023</u>	<u>Interest</u>	<u>Total</u>
Commercial Paper Debt Services	\$798,356	\$148,000	\$296,928	\$649,428	\$26,325	\$323,253

12. We reviewed the MOE requirement.
- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
 - b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or

- ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
 - d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$520,105
Less MOE base year requirement	<u>(233,219)</u>
Excess MOE for the year ended June 30, 2023	<u>\$286,886</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 12, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF LA MESA, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of La Mesa, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: This procedure is not applicable as there was no interest income reported on Schedule A in FY 23.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.
- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditure less debt service in the amount of \$566,369. We selected \$297,764 (52.57%) for testing. No exceptions were noted as a result of our procedures.
- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.
- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.
- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.
- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures identified during FY 23.
- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated to projects included in the RTIP.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no projects during FY 23 that were inactive.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no projects during FY 23 that were inactive.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: We received approved staff resolution R-2023-053 for the transfer of funds from MPO ID LAM17 to LAM40.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity for the fiscal year.

- 7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

- 8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment,

net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$2,160,390
Less: debt service payment	<u>(510,397)</u>
Net estimated apportionment	1,649,993
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>494,998</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(47,630)
Maintenance fund balance	<u>(47,254)</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(94,884)</u>
Fund balance under apportionment	<u>\$589,882</u>

- We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held <u>by City</u>	Funds Held <u>by SANDAG</u>	<u>Total</u>
Congestion Relief	\$(47,630)	\$ 396,087	\$ 348,457
Maintenance	<u>(47,254)</u>	<u>3,041,609</u>	<u>2,994,355</u>
Totals	<u>\$(94,884)</u>	<u>\$3,437,696</u>	<u>\$3,342,812</u>

- We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 16.23% of cumulative local street and road revenue for maintenance as indicated on the following page:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$22,693,556	\$65,485	\$22,759,041
Maintenance	5,005,615	2,899,335	7,904,950
Interest	<u>700</u>	<u>472,876</u>	<u>473,576</u>
Total local street and road revenue	<u>\$27,699,871</u>	<u>\$3,437,696</u>	<u>\$31,137,567</u>
30% of total local street and road revenue			\$9,341,270
Less maintenance expenditures incurred to date			<u>(5,053,061)</u>
Available maintenance funds			<u>\$4,288,209</u>
Cumulative percentage expended for maintenance			<u>16.23%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	<u>Balance July 1, 2022</u>	<u>Additions</u>	<u>Repayments</u>	<u>Balance June 30, 2023</u>	<u>Interest Expense</u>
Commercial Paper	\$499,988	\$-	\$(500,004)	\$-	\$10,393

12. We reviewed the MOE requirement.
- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
 - b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.

- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$3,493,477
Less MOE base year requirement	<u>(2,023,372)</u>
Excess MOE for the year ended June 30, 2023	<u>\$1,470,105</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: The City is not in compliance with the RTCIP exaction fee requirement. See Finding 1 in the Findings and Recommendation section of the report.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven-year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$69,367. We selected \$47,759 (68.85%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures identified during FY 23.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 31, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The City had one prior year finding related to the use of incorrect exaction fees for RTCIP collections. Per discussion with the City, it was noted that they were not able to recoup the \$1,956.32 from developers, and as such, have made a transfer

from the General Fund to absorb the loss. Furthermore, the finding was repeated in FY 23.

16. We proposed current year's findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See the Findings and Recommendations section of this report.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

DavisFarrLLP

June 10, 2024

CITY OF LA MESA, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee

Per review of the City’s exaction fee collections for the year ended June 30, 2023, the City did not consistently collect the required exaction fee amount of \$2,635.50 for FY 22 permit applications. There were three permits issued in FY 22 where the exaction fees collected were based on the FY 21 rate of \$2,583.82 instead of the correct FY 22 amount of \$2,635.50. This resulted in an under-collection of the exaction fees in the amount of \$2,067.20 as follows:

<u>Permit #</u>	<u>Units</u>	<u>Amount Required</u>	<u>Amount Charged</u>	<u>Variance</u>
B22-124	12	\$31,626.00	\$31,005.84	\$ 620.16
B22-125	14	36,897.00	36,173.48	723.52
B22-126	<u>14</u>	<u>36,897.00</u>	<u>36,173.48</u>	<u>723.52</u>
Totals	<u>40</u>	<u>\$105,420</u>	<u>\$103,352.80</u>	<u>\$2,067.20</u>

SANDAG Board recommendations as of February 10, 2021 and subsequent approval states, in part:

“...the Board of Directors is asked to approve a 2 percent adjustment to the Regional Transportation Congestion Improvement Program (RTCIP) raising the minimum fee from \$2,583.82 to \$2,635.50 beginning July 1, 2021.”

Additionally, Board Policy 031, Rule #23 B.5 states in part:

“...if, however, the audit establishes a local agency did not provide its full monetary contribution under the RTCIP and the local agency does not cure defects of which it was notified by the time the audit is finalized and adopted by the ITOC, then the local agency will have forfeited its Section 4(D)(1) contribution. Any amount paid to the local agency in the fiscal year that was the subject of the audit will be retroactively owed to the Commission...”

Recommendation

We recommend that the City recover the under-collection of exaction fees in the amount of \$2,067.20. Additionally, we recommend that the City update and collect the proper exaction on a yearly basis to be in compliance with the RTCIP fees.

CITY OF LA MESA, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee (Continued)

Management Response

The City implemented a new permitting system in 2022. After a review of audit documentation, it was found that the new permitting software was extracting old RTCIP exaction fees that were uploaded when transferring data from the old system to the new one. The new permitting system has been updated with the correct RTCIP fees. A reminder has been set within the system to verify RTCIP exaction fees are updated annually per SANDAG's approved rate. In addition, City staff will review all exaction fees before the end of the fiscal year to ensure the correct rates have been applied and any necessary corrections will be made. The Finance Department will be working with the Community Development and Engineering Departments to ensure the correct rates are charged and collected.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) The City obtained Council approval via Resolution 2023-053 issued on 5/9/2023 in the amount of \$2,928 moved from LAM17 to LAM40.
- (b) Project was completed during FY 23.
- (c) This is a reimbursable funding source and expenditures are expected to be in excess of funding while the project is active.
- (d) Ending balance is due to rounding when calculating *TransNet* revenue reimbursement request.
- (e) Project is complete. The City will clear the balance of \$12 by moving the expense to a HUTA transportation account in FY 24.

Subtotal RTCIP Funds			<u>1,969,527</u>	<u>43,881</u>	<u>(1,607,574)</u>	<u>1,956</u>	<u>-</u>	<u>407,790</u>	<u>264,252</u>	
GASB 31 Market Value Adjustment			-	(27,368)	-	27,368	-	-	(27,368)	(b)
Total RTCIP Funds			<u>\$ 1,969,527</u>	<u>\$ 16,513</u>	<u>\$ (1,607,574)</u>	<u>\$ 29,324</u>	<u>\$ -</u>	<u>\$ 407,790</u>	<u>\$ 236,884</u>	

Notes:

- (a) Adjustment is for City absorbing undercollected exactions from FY 22. City has transferred funds from the general fund to cover the costs.
- (b) Adjustment is to zero out the GASB 31 Market Value Adjustment line, as it will not be used in FY 24 onward.

CITY OF LEMON GROVE, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Lemon Grove, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$802,989. We selected \$303,797 (37.83%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City implemented a formal cost allocation plan that was adopted by City Council in FY 2019. The cost allocation plan charges a percentage of payroll and positions charged to the *TransNet* fund. In FY23, salaries and benefits charged to the *TransNet* fund were \$33,210. In addition, a portion of payments made to the contract City Engineer, Rick Engineering, was allocated to the *TransNet* program to reflect the time the Engineer spent working on *TransNet* projects. In FY23, total expenditures charged to *TransNet* for Rick Engineering were \$66,635. In total, the City allocated \$115,677 of indirect costs to the *TransNet* program, which represents 14.41% of total *TransNet* expenditures made during FY23. The City reduced overhead costs by 2.65% as compared to the prior year. The City also had pay equity adjustments, COLA increases, and contract cost increases, being the contributing factors to indirect costs exceeding 10%. The City's indirect cost plan has not been reviewed by a cognizant agency or audited by an independent certified public accounting firm. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no amounts reflected in the "Adjustments" column.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects during FY23.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects during FY23.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City did not have any non-*TransNet* activity during FY23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no Adjustments in Schedule A.

c. We identified any completed projects reported in the prior year’s Schedule A and ensured that all completed projects were reported in the current year’s Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$968,858
Less: debt service payment	<u> -</u>
Net estimated apportionment	968,858
30% base	<u> 30%</u>
Fiscal year 2023 30% threshold	<u> 290,657</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(10,681)
Maintenance fund balance	<u> 6,066</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u> (4,615)</u>
Fund balance under apportionment	<u>\$286,042</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$10,681	\$ 808,090	\$ 818,771
Maintenance	<u>(6,066)</u>	<u>466,637</u>	<u>460,571</u>
Totals	<u>\$ 4,615</u>	<u>\$1,274,727</u>	<u>\$1,279,342</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 25.70% of cumulative local street and road revenue for maintenance as indicated as follows:

	City	SANDAG	Total
Congestion relief	\$6,993,008	\$ 667,339	\$7,660,347
Maintenance	2,857,123	406,592	3,263,715
Interest	<u>16,513</u>	<u>200,796</u>	<u>217,309</u>
Total local street and road revenue	<u>\$9,866,644</u>	<u>\$1,274,727</u>	<u>\$11,141,371</u>

30% of total local street and road revenue	\$ 3,342,411
Less maintenance expenditures incurred to date	<u>(2,863,557)</u>
Available maintenance funds	<u>\$ 478,854</u>
Cumulative percentage expended for maintenance	<u>25.70%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$ 973,148
Less MOE base year requirement	<u>(203,027)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 770,121</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures exceeding 20% of the total dollar amount of expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on November 10, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The City had one prior year finding from FY22 relating to not consistently collecting the required exaction fee amount. As of June 30, 2023, the City was able to collect the \$4,650.19 from a General Fund transfer.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF NATIONAL CITY, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of National City, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$3,879,583. We selected \$1,447,417 (37.31%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not incur payroll expenditures for *TransNet* projects in FY 23.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as the City did not allocate indirect costs to *TransNet* projects in FY 23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no projects completed in FY 23.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the

recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are two projects that have been inactive over the past two years. The City indicated that for both NC34 and NC35, "The Engineering Department will conduct a review of these projects and their statuses in FY 24, and will either continue the projects or request a final reimbursement" The status of these projects have been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on February 9, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had non-*TransNet* activity included within Schedule A in FY 23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: This procedure is not applicable as the City did not have any completed projects on Schedule A in FY 23.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$2,010,366
Less: debt service payment	<u>-</u>
Net estimated apportionment	2,010,366
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>603,110</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	838,387
Maintenance fund balance	<u>-</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>838,387</u>
Fund balance under apportionment	<u>\$1,441,497</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$(838,387)	\$(2,949,576)	\$(3,787,963)
Maintenance	<u>-</u>	<u>6,702,798</u>	<u>6,702,798</u>
Totals	<u>\$(838,387)</u>	<u>\$ 3,753,222</u>	<u>\$ 2,914,835</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 0.00% of cumulative local street and road revenue for maintenance indicated as follows:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$22,200,332	\$(3,413,307)	\$18,787,025
Maintenance	-	6,529,498	6,529,498
Interest	<u>53,807</u>	<u>637,031</u>	<u>690,838</u>
 Total local street and road revenue	 <u>\$22,254,139</u>	 <u>\$3,753,222</u>	 <u>\$26,007,361</u>
 30% of total local street and road revenue			 \$7,802,208
Less maintenance expenditures incurred to date			 <u>-</u>
 Available maintenance funds			 <u>\$7,802,208</u>
 Cumulative percentage expended for maintenance			 <u>0.00%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.
- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
 - b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;

- iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$3,128,715
Less MOE base year requirement	<u>(2,029,966)</u>
Excess MOE for the year ended June 30, 2023	<u>\$1,098,749</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$52,348. We selected \$20,100 (38.40%) for testing. No exceptions noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not incur payroll expenditures for RTCIP projects in FY 23.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 18, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF OCEANSIDE, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Oceanside, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$1,840,903. We selected \$494,558 (26.86%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City's indirect cost plan was last approved during FY 2010 by Development Services Director and Financial Services Director. The City allocates costs based on all expenses charged to the designated Engineering Account, as a percentage of each active CIP account on a quarterly basis. The City allocated a total of \$100,261 of indirect costs in the RTIP, resulting in 5.45% of indirect costs compared to total *TransNet* expenditures. The City's methodology for allocating indirect costs appears reasonable. The City's indirect cost plan has not been reviewed by a cognizant agency or audited by an independent CPA firm. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments made by the City in FY23.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are five projects that have been inactive over the past two years. The City indicated that "O17 is scheduled to resume in FY 24 and has been updated in ProjectTrak to reflect the revised timeframe. Regulatory (CORP and FWS) permits will require almost 2 years to obtain." Additionally, "O33 is a multi-year project that requires coordination with SANDAG and approval from the California Coastal Commission and is a regionally significant project. Work will continue over the next few years and will expend budgeted funds." Moreover, "O40 is complete. The City is coordinating with the California Public Utilities Commission, Caltrans, and the Federal Rail Authority to close out the remaining balance. Further, "O41 is complete. A draw down request to cover this negative balance will be processed for SANDAG's review and approval." Finally, "O47 is complete. Funds will be transferred to an Eligible MPO ID or returned to SANDAG in FY24." The status of the projects have been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 5, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there was no non-*TransNet* activity reported for the fiscal year.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments made by the City in FY23.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$6,426,459
Less: debt service payment	<u> -</u>
Net estimated apportionment	6,426,459
30% base	<u> 30%</u>
Fiscal year 2023 30% threshold	<u>1,927,938</u>
Less:	
Local Streets and Roads fund balance	(343,422)
Local Street Improvement:	
Congestion Relief fund balance	(1,217,951)
Maintenance fund balance	<u> 13,801</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(1,547,572)</u>
Fund balance under apportionment	<u>\$ 3,475,510</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	<u>Funds Held by City</u>	<u>Funds Held by SANDAG</u>	<u>Total</u>
Congestion Relief	\$(1,217,951)	\$ 4,906,186	\$ 3,688,235
Maintenance	<u>13,801</u>	<u>7,815,496</u>	<u>7,829,297</u>
Totals	<u>\$(1,204,150)</u>	<u>\$12,721,682</u>	<u>\$11,517,532</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 18.15% of cumulative local street and road revenue for maintenance as follows:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$54,996,646	\$4,064,472	\$59,061,118
Maintenance	15,002,013	7,443,407	22,445,420
Interest	<u>243,244</u>	<u>1,213,803</u>	<u>1,457,047</u>
Total local street and road revenue	<u>\$70,241,903</u>	<u>\$12,721,682</u>	<u>\$82,963,585</u>
30% of total local street and road revenue			\$24,889,076
Less maintenance expenditures incurred to date			<u>(15,061,339)</u>
Available maintenance funds			<u>\$9,827,737</u>
Cumulative percentage expended for maintenance			<u>18.15%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.

- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
 - c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
 - d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$5,208,936
Less MOE base year requirement	<u>(3,120,588)</u>
Excess MOE for the year ended June 30, 2023	<u>\$2,088,348</u>

- 13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.
 - a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.
 - b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.
 - c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.
- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.
- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.
- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.
- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$262,523. We selected \$88,591 (33.75%) for testing. No exceptions were noted as a result of our procedures.
- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable RTCIP expenditures identified in procedure 13.c.v.
- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not incur payroll expenditures related to RTCIP projects in FY23.
- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage

was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on September 25, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) This project is a multi-year project that requires coordination with Caltrans and concurrence from the California Transportation Commission (CTC) and is a regionally significant project. Design efforts are continuing. This money is and will be spent over the next five years.
- (b) This project is scheduled to resume in FY24 and has been updated in ProjectTrak to reflect the revised timeframe. Regulatory (CORP and FWS) permits will require almost 2 years to obtain.
- (c) This negative balance is a result of contract work completed and paid for in advance with local funds. A draw down to reconcile this negative balance will be processed for submittal to SANDAG for reimbursement in FY24.
- (d) This is a multi-year project that requires coordination with SANDAG and approval from the California Coastal Commission and is a regionally significant project. Work will continue over the next few years and will expend budgeted funds.
- (e) This is an on-going project. Funds will be spent on in FY 24.
- (f) Work is complete. Staff is coordinating with the California Public Utilities Commission (CPUC), Caltrans and the Federal Rail Authority (FRA) to close out the project. A draw down to reconcile this negative balance will be processed for SANDAG's review and approval.
- (g) Project is completed. A draw down request to cover this negative balance will be processed for SANDAG's review and approval.
- (h) Project is completed. Funds will be transferred to an Eligible MPO ID or returned to SANDAG in FY 24.
- (i) Grant Funding will be requested for reimbursement in FY 24.
- (j) Grant Project is completed. Grant Funding will be requested for reimbursement in FY24 to resolve the negative balance.

CITY OF POWAY, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Poway, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$2,545,337. We selected \$2,300,948 (90.40%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures identified during FY23.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated during FY23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments made in FY23.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed projects with balances remaining.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the

recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There was one project which had no activity over the past two years: POW 37. The City indicated that this project had been completed, and that the excess funding received will be transferred to other eligible projects in FY 24.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on November 14, 2023.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity included within Schedule A in FY23.

- 7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as the City had no adjustments included within Schedule A in FY23.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$2,074,301
Less: debt service payment	<u>-</u>
Net estimated apportionment	2,074,301
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>622,290</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	880,080
Maintenance fund balance	<u>153,940</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>1,034,020</u>
Fund balance under apportionment	<u>\$1,656,310</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$ (880,080)	\$2,896,010	\$2,015,930
Maintenance	<u>(153,940)</u>	<u>754,877</u>	<u>600,937</u>
Totals	<u>\$(1,034,020)</u>	<u>\$3,650,887</u>	<u>\$2,616,867</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 27.31% of cumulative local street and road revenue for maintenance as follows:

	<u>Poway</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$13,561,273	\$2,740,423	\$16,301,696
Maintenance	6,262,409	691,535	6,953,944
Interest	<u>40,536</u>	<u>218,929</u>	<u>259,465</u>
Total local street and road revenue	<u>\$19,864,218</u>	<u>\$3,650,887</u>	<u>\$23,515,105</u>
30% of total local street and road revenue			\$7,054,532
Less maintenance expenditures incurred to date			<u>(6,420,993)</u>
Available maintenance funds			<u>\$ 633,539</u>
Cumulative percentage expended for maintenance			<u>27.31%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.

- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$1,786,700
Less MOE base year requirement	<u>(1,327,553)</u>
Excess MOE for the year ended June 30, 2023	<u>\$ 459,147</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed

in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$401,260. We tested \$258,203 (64.35%) for testing. No exceptions noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no RTCIP payroll expenditures for the fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to

ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 29, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

- 16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) Project Complete. The City will move remaining funding to an eligible project in FY24.
- (b) Funding will be requested in FY24 to remove the deficit.

SCHEDULE B

CITY OF POWAY, CALIFORNIA
TransNet Extension Activities
 Cumulative Schedule of Status of Funds by Project
 Year Ended June 30, 2023

MPO ID	Project Number	Project Name	Funds Received	Interest Income	Project Expenditures	Project Status June 30, 2023

CITY OF SAN DIEGO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of San Diego, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditure in the amount of \$42,414,599. We selected \$11,940,078 (28.15%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: The City recorded total *TransNet* payroll expenditures in the amount of \$11,464,550, which represented 27.03% of total expenditures. We selected a pay period for 5 employees for testing. No exceptions were noted as a result of our procedures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect

cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. Indirect costs are allocated to RTIP projects at a rate that depends on the department of the employee that charged labor to the project. In total, two city departments charged labor and applied indirect costs to projects in the RTIP. The indirect cost rates charged by the departments ranged from 10.00% to 162.60% of direct labor. Total indirect costs included within projects in the RTIP was \$5,742,120 or 13.59% of total *TransNet* expenditures. The City's indirect costs exceeded 10% of total *TransNet* expenditures due to the City having preliminary project internal orders that are 100% labor expenses. When the preliminary internal orders are excluded, the indirect costs would be 11.0%. In addition, the City employs its own engineers, project managers and other employees that smaller cities would contract out to vendors. The City's cost allocation plan was approved by the Chief Financial Officer during FY 2022. The City's cost allocation plan has not been reviewed by a federal or state agency, nor has it been audited by an independent certified public accounting firm. The City's methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedure.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There were three projects that were inactive over the past two years. The City indicated that "SD34 is projected to be completed by 9/10/2032. SD34 is currently using other non-*TransNet* funding sources (\$1.0M expense in FY23). This project has \$7.6M in unidentified funding that could include *TransNet* in future years. SD129 is projected to be completed in FY2025. SD129 is currently using other non-*TransNet* funding sources (\$1.5M expense in FY23). This project has \$106K in unidentified funding that could include *TransNet* in future years. SD226 is currently used by other non-*TransNet* sources in FY23 (\$13.5K expense in FY23) The project will have *TransNet* expenses in FY24."

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 4, 2024.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: The City had transfer of funds for 3 projects which was approved in staff resolution R-315256. No exceptions were noted as a result of our procedures.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there was no non-*TransNet* activity separate from *TransNet* activity in Schedule A.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$47,739,788
Less: debt service payment	<u>(822,397)</u>
Net estimated apportionment	46,917,391
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>14,075,217</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	11,206,776
Maintenance fund balance	<u>(31,761)</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>11,175,015</u>
Fund balance under apportionment	<u>\$ 2,900,202</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	<u>Funds Held by City</u>	<u>Funds Held by SANDAG</u>	<u>Total</u>
Congestion Relief	\$11,206,776	\$40,058,021	\$51,264,797
Maintenance	<u>(31,761)</u>	<u>975,302</u>	<u>943,541</u>
Totals	<u>\$11,175,015</u>	<u>\$41,033,323</u>	<u>\$52,208,338</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 28.19% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$345,366,797	\$35,393,741	\$380,760,538
Maintenance	151,870,811	(1,214,309)	150,656,502
Interest	<u>497,191</u>	<u>6,853,891</u>	<u>7,351,082</u>
Total local street and road revenue	<u>\$497,734,799</u>	<u>\$41,033,323</u>	<u>\$538,768,122</u>
30% of total local street and road revenue			\$161,630,437
Less maintenance expenditures incurred to date			<u>(151,902,572)</u>
Available maintenance funds			<u>\$ 9,727,865</u>
Cumulative percentage expended for maintenance			<u>28.19%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	<u>Balance July 1, 2022</u>	<u>Additions</u>	<u>Principal Payments</u>	<u>Balance June 30, 2023</u>	<u>Interest Payment</u>
Commercial paper	<u>\$26,167,000</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$26,167,000</u>	<u>\$822,397</u>

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

	<u>Street and Road</u>	<u>Specialized Transportation Services</u>	<u>Transit Bus Subsidies</u>	<u>Total</u>
Current year local discretionary expenditures	\$57,308,503	\$191,311	\$1,029,903	\$58,529,717
Less MOE Discretionary in Transit Bus Subsidies	(707,056)	-	-	(707,056)
Less MOE base year requirement	<u>(25,854,722)</u>	<u>(191,311)</u>	<u>(1,029,903)</u>	<u>(27,075,936)</u>
Excess MOE for the year ended June 30, 2023	<u>\$30,746,725</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$30,746,725</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$3,270,948. We selected \$553,767 (16.93%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedures 13.c.v.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City's payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: No exceptions were noted as a result of our procedures.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 27, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: No exceptions were noted as a result of our procedures.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year's findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"TransNet Extension Ordinance" means the 2004 Proposition A.

"TransNet Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) Proceeds from the Commercial Paper were subsequently transferred as an interfund loan for the West Mission Bay Blvd Bridge Project. The Commercial Paper principal will be returned to SANDAG in FY24 after the expenditures for this project have been reimbursed by the Federal grant.
- (b) Inactive Projects per TransNet: SD34 is projected to be completed by 9/10/2032. SD34 is currently using other non-TransNet funding sources (\$1.0M expense in FY23). This project has \$7.6M in unidentified funding that could include TransNet in future years. SD129 is projected to be completed in FY2025. SD129 is currently using other non-TransNet funding sources (\$1.5M expense in FY23). This project has \$106K in unidentified funding that could include TransNet in future years. SD226 is currently used by other non-TransNet sources in FY23 (\$13.5K expense in FY23) The project will have TransNet expenses in FY24.
- (c) Prior year expenditure were transferred into non-SANDAG / TransNet grants with available funding.
- (d) Project is complete.
- (e) City Council approval obtained for the transfer of funds per Resolution R-315256 on 12/12/2023.
- (f) FY24 draws will provide coverage for MPO ID projects with negative balances as of June 30, 2023.
- (g) Completed MPO ID SD137 project during FY22 but the City received a \$20 late expense reimbursement from a vendor during FY23.
- (h) Grant is complete.
- (i) Negative grant balance as of June 30, 2023 covered by grant reimbursement in FY24 or withheld retention to be released when the project is completed.

CITY OF SAN MARCOS, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of San Marcos, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditure less debt services in the amount of \$453,107. We selected \$318,206 (70.23%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures incurred within projects included in the RTIP.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's

indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated to projects included in the RTIP.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There are two projects that has been inactive over the past two years. The City indicated that, "Project (SM48) has been inactive over the

past two years for Schedule A reporting purposes as *TransNet* budget appropriation has been fully used. Project is still an active City project. And Project (SM59) has been inactive over the past two years for Schedule A reporting purposes as the City will make an adjustment to transfer the balance to another project on their annual RTIP update." The status of the projects has been added to Schedule A.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on December 6, 2023.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity for the fiscal year ended June 30, 2023.

- 7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: This procedure is not applicable as there were no completed projects present on Schedule A for the fiscal year ended June 30, 2023.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$3,272,994
Less: debt service payment	<u>(618,653)</u>
Net estimated apportionment	2,654,341
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>796,302</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(807,912)
Maintenance fund balance	<u>23,703</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(784,209)</u>
Fund balance under apportionment	<u>\$1,580,511</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$(807,912)	\$ 6,706,871	\$ 5,898,960
Maintenance	<u>23,703</u>	<u>6,625,786</u>	<u>6,649,489</u>
Totals	<u>\$(784,209)</u>	<u>\$13,332,657</u>	<u>\$12,548,449</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 7.47% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$32,911,548	\$ 5,763,487	\$38,675,035
Maintenance	3,738,035	6,230,070	9,968,105
Interest	<u>41,188</u>	<u>1,339,100</u>	<u>1,380,288</u>
 Total local street and road revenue	 <u>\$36,690,771</u>	 <u>\$13,332,657</u>	 <u>\$50,023,428</u>
 30% of total local street and road revenue			 \$15,007,028
Less maintenance expenditures incurred to date			<u>(3,738,035)</u>
 Available maintenance funds			 <u>\$11,268,993</u>
 Cumulative percentage expended for maintenance			 <u>7.47%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below.

	<u>Balance July 1, 2022</u>	<u>Additions</u>	<u>Principal Payments</u>	<u>Balance June 30, 2023</u>	<u>Interest Payments</u>
2010 Series A Bonds	\$15,139,627	\$ -	\$ -	\$15,139,627	\$587,501
2019 Series A Bonds	1,025,000	-	-	1,025,000	31,152

12. We reviewed the MOE requirement.
- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
 - b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or

- ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
 - d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$7,144,629
Less: MOE base year requirement	(4,893,432)
Less: Prior year shortfall	<u>(629,185)</u>
Excess MOE for the year ended June 30, 2023	<u>\$1,622,012</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$1,210,638. We selected \$452,863 (37.41%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not have payroll expenditures that exceeded 20% of total RTCIP expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension

Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on October 6, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: The prior year report included a finding related to the City failing to meet its MOE requirement for Streets and Roads. We were able to obtain additional support showing SANDAG's approval and meetings held for the shortfall. Based on the City's MOE for FY23, the City was able to meet their MOE requirement for FY23.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF SANTEE, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Santee, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.
- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.
- Results: No exceptions were noted as a result of our procedures.
- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).
- Results: The City recorded total *TransNet* expenditures less debt service in the amount of \$1,019,771. We selected \$720,415 (70.64%) for testing. No exceptions were noted as a result of our procedures.
- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.
- Results: No exceptions were noted as a result of our procedures.
- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.
- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.
- Results: No exceptions were noted as a result of our procedures.
- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.
- Results: This procedure is not applicable as payroll expenditures did not exceed 20% of total dollar amount of *TransNet* expenditures.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The City allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. The City charges indirect costs at the rate of 22.7% of direct salary and benefit costs associated with each project. The City allocated a total of \$37,129 of indirect costs to all RTIP projects, resulting in 1.48% of indirect costs compared to total project expenditures. We then extrapolated this percentage to calculate total *TransNet* indirect costs of \$15,014. The City does not have a formal written indirect cost plan. The City's indirect cost allocation is reviewed internally and updated annually and last updated during FY23 by the Finance Director. The City's indirect cost allocation has not been reviewed by a federal or state agency or audited by an independent certified public accounting firm. The City's methodology for allocating indirect costs appears reasonable. Indirect costs did not exceed 10% of total expenditures, as such no explanation was obtained. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: This procedure is not applicable as there were no projects with negative ending balances on Schedule A in FY23.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: This procedure is not applicable as there were no projects with negative ending balances on Schedule A in FY23.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there was no non-*TransNet* activity on Schedule A in FY23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.).

We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

- 8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$1,961,151
Less: debt service payment	<u>(788,884)</u>
Net estimated apportionment	1,172,267
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>351,680</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(12,050)
Maintenance fund balance	<u>(9,144)</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(21,194)</u>
Fund balance under apportionment	<u>\$330,486</u>

- 9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$12,050	\$(296,282)	\$(284,232)
Maintenance	<u>9,144</u>	<u>1,778,776</u>	<u>1,787,920</u>
Totals	<u>\$21,194</u>	<u>\$1,482,494</u>	<u>\$1,503,688</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 12.14% of cumulative local street and road revenue for maintenance as indicated below:

	City	SANDAG	Total
Congestion relief	\$34,044,279	\$(515,277)	\$33,459,002
Maintenance	4,918,504	1,698,573	6,687,077
Interest	<u>2,836</u>	<u>299,198</u>	<u>302,034</u>
Total local street and road revenue	<u>\$38,965,619</u>	<u>\$1,482,494</u>	<u>\$40,448,113</u>
30% of total local street and road revenue			\$12,134,434
Less maintenance expenditures incurred to date			<u>(4,910,652)</u>
Available maintenance funds			<u>\$ 7,223,782</u>
Cumulative percentage expended for maintenance			<u>12.14%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	Balance July 1, 2022	Additions	Principal Payments	Balance June 30, 2023	Interest and Other Adjustments
2014 Bonds	\$ 425,000	\$ -	\$(205,000)	\$ 220,000	\$ 14,615
2020 Bonds	3,295,000	-	(350,000)	2,945,000	153,427
2021 Bonds	2,870,000	-	-	2,870,000	62,450

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$3,100,334
Less MOE base year requirement	<u>(658,301)</u>
Excess MOE for the year ended June 30, 2023	<u>\$2,442,033</u>

- 13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.
- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.
- Results: No exceptions were noted as a result of our procedures.
- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.
- Results: No exceptions were noted as a result of our procedures.
- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.
- Results: No exceptions were noted as a result of our procedures.
- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.
- Results: No exceptions were noted as a result of our procedures.
- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.
- Results: The City recorded total RTCIP expenditures in the amounts of \$96,387. We selected \$74,223 (77.01%) for testing. No exceptions were noted as a result of our procedures.
- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 13.c.v.
- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of total expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on November 6, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Santee, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF SOLANA BEACH, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Solana Beach, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: This procedure is not applicable as there was no interest income reported in Schedule A or within the general ledger for FY23.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: This procedure is not applicable as there was no interest income reported in Schedule A or within the general ledger for FY23.

- f. We identified the total *TransNet* expenditures for the fiscal year.
- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.
- Results: No exceptions were noted as a result of our procedures.
- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).
- Results: The City recorded total *TransNet* expenditures less debt service in the amount of \$50,409. We selected \$33,327 (66.11%) for testing. No exceptions were noted as a result of our procedures.
- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.
- Results: No exceptions were noted as a result of our procedures.
- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.
- Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.
- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.
- Results: No exceptions were noted as a result of our procedures.
- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.
- Results: This procedure is not applicable as the City did not incur payroll expenditures for *TransNet* projects in FY23.
- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect

cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: The procedure is not applicable as there were no indirect costs allocated to projects included in the RTIP during FY23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: There was one project that has been inactive over the past two years: SB18. The City indicated that SB18 has had no expenditures for two years as the City did not have planned slurry seals in the annual pavement plans for FY22 or FY23. The City has planned expenditures under SB18 in FY24. The status of the project has been added to Schedule A.
 - k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: SANDAG approved the reason for the inactivity on January 5, 2024.
 - l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.
 - m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as the City had no non-*TransNet* activity for the fiscal year.
7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.
 - a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.
 - b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year’s Schedule A and ensured that all completed projects were reported in the current year’s Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$593,273
Less: debt service payment	<u>(213,430)</u>
Net estimated apportionment	379,843
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>113,953</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	1,702
Maintenance fund balance	<u>-</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>1,702</u>
Fund balance under apportionment	<u>\$112,251</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are indicated on the following page:

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

	Funds Held by City	Funds Held by SANDAG	Total
Congestion Relief	\$1,702	\$(566,853)	\$(565,151)
Maintenance	-	<u>1,772,480</u>	<u>1,772,480</u>
Totals	<u>\$1,702</u>	<u>\$1,205,627</u>	<u>\$1,207,329</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The City has expended 2.31% of cumulative local street and road revenue for maintenance as follows:

	City	SANDAG	Total
Congestion relief	\$11,017,605	\$(706,430)	\$10,311,175
Maintenance	289,587	1,716,306	2,005,893
Interest	<u>4,279</u>	<u>195,751</u>	<u>200,030</u>
Total local street and road revenue	<u>\$11,311,471</u>	<u>\$1,205,627</u>	<u>\$12,517,098</u>
30% of total local street and road revenue			\$3,755,129
Less maintenance expenditures incurred to date			<u>(289,587)</u>
Available maintenance funds			<u>\$3,465,542</u>
Cumulative percentage expended for maintenance			<u>2.31%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	Balance July 1, 2022	Additions	Principal Payments	Balance June 30, 2023	Interest Payments
2010 Series A Bonds	\$5,500,000	\$ -	\$ -	\$5,500,000	\$213,430

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller's Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller's Office; or
 - ii. We obtained notice from the State Controller's Office that the changes will be included in the subsequent year's Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$2,978,316
Less MOE base year requirement	<u>(535,585)</u>
Excess MOE for the year ended June 30, 2023	<u>\$2,442,731</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: The City did not expend or commit exaction fees collected within the required seven year timeframe. On April 26, 2024, the Board of Directors approved the City of Solana Beach's eligibility request to commit or expend funds by November 8, 2024. See Finding 1 in the Findings and Recommendations Section within the report.

iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: The City did not expend or commit exaction fees collected within the required seven year timeframe. See Finding 1 in the Findings and Recommendations Section within the report.

v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained

supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the City did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on September 27, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The City did not include any administrative projects in the RTIP.

15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See the Findings and Recommendations section of this report.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF SOLANA BEACH, CALIFORNIA

Report on Agreed-Upon Procedures Applied to the TransNet Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) RTCIP funding not expended nor committed within seven years of collection

The City did not expend or commit RTCIP funding collected during fiscal year 2016 within seven years of collection as required by the Section G, Item 4 of the 2004 *TransNet* Extension and Ordinance, which states as follows:

"... Each jurisdiction shall have up to but no more than seven fiscal years to expend Funding Program revenues on the Regional Arterial Systems projects. The seven year term shall commence on the first day of July following the jurisdiction's receipt of the revenue. At the time of the review and audit by the Independent Taxpayer Oversight Committee, each jurisdiction collecting a development impact fee to meet the requirements of its Funding Program shall provide the Committee with written findings for any expended, unexpended and uncommitted fees in their Program Fund and demonstrates a reasonable relationship between the fee and the purpose for which it was charged... Contributions to the Funding Program not committed or expended by the tenth anniversary date of the July 1 following collection shall be refunded to the current record owner of the development project on a prorated basis..."

Recommendation

We recommend that the City expend or commit the remaining unspent RTCIP funds to restore compliance with the 2004 *TransNet* Extension and Ordinance. Additionally, we recommend the City develop procedures to ensure exaction fees collected for RTCIP purposes are properly tracked to ensure said collections are expended or committed within the required seven year timeframe.

Management Response

The Solana Beach Engineering Department submitted Resolution 2023-122 to the City Council for approval on November 8, 2023. The purpose of this resolution was to amend the 2023 RTIP list of projects and commit to spending RTCIP funds in fiscal years 2024 and 2025 and to revise the City's Capital Improvement Program (CIP) budget for the Traffic Signal Upgrades Phase 1 project by substituting Gas Tax funding with RTCIP funding. The City passed council resolution 2023-122 on November 8, 2023 to amend the 2023 RTIP listing of projects and commit to spending RTCIP funds in fiscal years 2024 and 2025. On April 26, 2024, the Board of Directors approved the City's eligibility request to commit or expend funds by November 8, 2024.

GLOSSARY OF TERMS

“Annual Street Report” means the State of California Annual Street Report.

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee.

“MOE” means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

“MPO ID” means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

“Recipient Agency” means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

“RTCIP” means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

“RTIP” means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“*TransNet* Extension Ordinance” means the 2004 Proposition A.

“*TransNet* Ordinance and Expenditure Plan” means the 1987 Proposition A San Diego Transportation Improvement Plan.

CITY OF VISTA, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the City of Vista, California's (City's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The City's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the City with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.
- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The City recorded total *TransNet* expenditures in the amount of \$1,706,590. We selected \$854,976 (50.10%) for testing. No exceptions were noted as a result of our procedures.
- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.
- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.
- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.
- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.
- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet*

expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated to projects on Schedule A in FY23.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments included within Schedule A in FY23.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no projects completed within Schedule A in FY23.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the

recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years during FY23.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects with no activity over the past two years during FY23.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects in FY23.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects in FY23.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments noted within Schedule A in FY23.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The City is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$3,364,341
Less: debt service payment	<u>-</u>
Net estimated apportionment	3,364,341
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>1,009,302</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	(5,763)
Maintenance fund balance	<u>(21,379)</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>(27,142)</u>
Fund balance under apportionment	<u>\$1,036,444</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	Funds Held <u>by City</u>	Funds Held <u>by SANDAG</u>	<u>Total</u>
Congestion Relief	\$ (5,763)	\$2,869,901	\$2,864,138
Maintenance	<u>(21,379)</u>	<u>3,156,366</u>	<u>3,134,987</u>
Totals	<u>\$(27,142)</u>	<u>\$6,026,267</u>	<u>\$5,999,125</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency’s plan to cure the excess.

Results: The City has expended 19.67% of cumulative local street and road revenue for maintenance as indicated below:

	<u>City</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$24,974,960	\$2,416,081	\$27,391,041
Maintenance	7,561,638	2,943,481	10,505,119
Interest	<u>(20,608)</u>	<u>666,705</u>	<u>646,097</u>
Total local street and road revenue	<u>\$32,515,990</u>	<u>\$6,026,267</u>	<u>\$38,542,257</u>
30% of total local street and road revenue			\$11,562,677
Less maintenance expenditures incurred to date			<u>(7,583,189)</u>
Available maintenance funds			\$ <u>3,979,488</u>
Cumulative percentage expended for maintenance			<u>19.67%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

12. We reviewed the MOE requirement.
- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
 - b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.

- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: The City was in compliance with the MOE requirement. The City did not have an outstanding unmet MOE requirement for the prior year. MOE activity for the year ended June 30, 2023, is summarized as follows:

Current year local discretionary expenditures	\$5,278,877
Less MOE base year requirement	<u>(2,703,364)</u>
Excess MOE for the year ended June 30, 2023	<u>\$2,575,513</u>

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: No exceptions were noted as a result of our procedures.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed

in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: The City recorded total RTCIP expenditures in the amount of \$253,213. We selected \$117,470 (46.39%) for testing. No exceptions were noted as a result of our procedures.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: This procedure is not applicable as the City did not incur expenditures for fund administration.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to

ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the City did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The City provided RTCIP documentation to us for review on September 25, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: This procedure is not applicable as the City did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

- 16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the City's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National City, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

COUNTY OF SAN DIEGO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the County of San Diego, California's (County's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. The County's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by the County with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed in alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc.).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. We notified the recipient agency of any variations and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed interest income reported on Schedule A and matched it to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: The County recorded total *TransNet* expenditures in the amount of \$11,050,733. We selected \$4,685,944 (42.40%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. Based on the project description and expenditure support reviewed, we evaluated whether the MPO ID is properly classified as either Maintenance or Congestion Relief based on the definition in Board Policy 031.

Results: No exceptions were noted as a result of our procedures.

- vi. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures for FY23.

- vii. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a Federal or State agency or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: Indirect costs were allocated to the projects included in the RTIP using an overhead ratio of total overhead costs to direct labor costs. Multiple rates were used due to different cost codes. A total of \$1,042,975 of indirect costs were charged to the *TransNet* program, which resulted in an average indirect cost rate of 9.44% compared to total *TransNet* expenditures. The indirect cost rate has not been reviewed by a federal or state agency or audited by an independent CPA firm. The indirect cost rates are updated and reviewed during FY 2023 by the County's Auditor & Controller Department. The methodology for allocating indirect costs appears reasonable. No exceptions were noted as a result of our procedures.

- g. We reviewed that any amounts reflected in the "Adjustments" column were explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as the County did not have any amounts reflected in the Adjustment column which would have required a footnote.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We determined that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: No exceptions were noted as a result of our procedures.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that includes the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III.

Results: No exceptions were noted as a result of our procedures.

- i. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2024.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed whether inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had provided a footnote as to the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects over the past two years.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects over the past two years.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: We noted that project CNTY82 (1010313) was completed during FY21 with a balance remaining. Remaining funds will be transferred to CNTY14A Santa Fe Ave – South in FY24/25. The County passed a resolution to amend the RTIP on April 10, 2024, Minute Order 4 to approve the transfer.

- m. We determined whether the recipient agency reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as there were no non-*TransNet* activity reported in Schedule A.

7. We obtained from the recipient agency Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief vs. maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments in Schedule A.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending project status per Schedule A for those projects that were derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: The County is in compliance with the 30% requirement as follows:

Fiscal year 2023 apportionment	\$21,732,063
Less: debt service payment	<u>(992,013)</u>
Net estimated apportionment	20,740,050
30% base	<u>30%</u>
Fiscal year 2023 30% threshold	<u>6,222,015</u>
Less:	
Local Streets and Roads fund balance	-
Local Street Improvement:	
Congestion Relief fund balance	4,091,977
Maintenance fund balance	<u>150,070</u>
Total Local Streets and Roads and Local Street Improvement fund balance	<u>4,242,047</u>
Fund balance under apportionment	<u>\$1,979,968</u>

9. We reported the ending balance from Schedule A, of Local Street Improvements (LSI) and Congestion Relief and Maintenance. We reported the ending balances of Congestion Relief and Maintenance from the SANDAG FY 2023 *TransNet* Local Streets Improvements Allocation Schedule.

Results: The ending balances for Congestion Relief and Maintenance as of June 30, 2023 are as follows:

	<u>Funds Held by County</u>	<u>Funds Held by SANDAG</u>	<u>Total</u>
Congestion Relief	\$4,091,977	\$ 11,230,282	\$ 15,322,259
Maintenance	<u>150,070</u>	<u>68,717,758</u>	<u>68,867,828</u>
Totals	<u>\$4,242,047</u>	<u>\$ 79,948,040</u>	<u>\$ 84,190,087</u>

10. We documented the percentage of local street and road revenue cumulatively expended for maintenance. If the percentage was greater than 30%, we documented the recipient agency's plan to cure the excess.

Results: The County has expended 4.44% of cumulative local street and road revenue for maintenance as indicated below:

	<u>County</u>	<u>SANDAG</u>	<u>Total</u>
Congestion relief	\$156,105,322	\$ 6,456,339	\$162,561,661
Maintenance	10,358,090	66,936,500	77,294,590
Interest	<u>1,807,981</u>	<u>6,555,201</u>	<u>8,363,182</u>
Total local street and road revenue	<u>\$168,271,393</u>	<u>\$79,948,040</u>	<u>\$248,219,433</u>
30% of total local street and road revenue			\$ 74,465,830
Less maintenance expenditures incurred to date			<u>(11,011,411)</u>
Available maintenance funds			<u>\$ 63,454,419</u>
Cumulative percentage expended for maintenance			<u>4.44%</u>

11. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The County does not include the debt service on the bonds in Schedule A. SANDAG provided the schedule of long-term debt for the County as shown on the following page:

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

	<u>Balance</u> <u>July 1, 2022</u>	<u>Adjustment</u>	<u>Principal</u> <u>Payments</u>	<u>Balance</u> <u>June 30, 2023</u>	<u>Interest</u> <u>Payments</u>
2008 Bonds	\$14,978,163	\$ -	\$ 706,251	\$14,271,912	\$285,746
2012 Bonds	-	-	-	-	16
Total	<u>\$14,978,163</u>	<u>\$ -</u>	<u>\$ 706,251</u>	<u>\$14,271,912</u>	<u>\$285,762</u>

12. We reviewed the MOE requirement.

- a. We obtained the current MOE requirements for each recipient agency from SANDAG staff.
- b. We obtained Schedule 3 of the Annual Street Report from the recipient agency.
 - a. If an error to the Annual Street Report is reported by the recipient agency subsequent to submission of the Report to the State Controller’s Office, we performed additional steps as follows:
 - i. We obtained an updated Annual Street Report, as submitted to the State Controller’s Office; or
 - ii. We obtained notice from the State Controller’s Office that the changes will be included in the subsequent year’s Annual Street Report;
 - iii. We included adjusted amount to AUP 12.c. and provided a brief explanation of adjustments in Results.
- c. We reported the excess (deficit) of discretionary expenditures over the MOE base, which is equal to the amount of discretionary funds expended for the Local Street Improvement Program less the MOE base amount.
- d. We reported any outstanding unmet requirement from a prior year, the amount of time the recipient agency has remaining to meet its required MOE, and reported a roll forward schedule.

Results: This procedure is not applicable as the County does not have an MOE requirement.

13. We obtained from SANDAG staff the approved RTCIP Funding Program for the current fiscal year.

- a. For the RTCIP fund, we obtained a detailed general ledger from the recipient agency.

Results: No exceptions were noted as a result of our procedures.

- b. We obtained from the recipient agency the RTCIP approved schedule for collecting and/or contributing private sector exactions to its Funding Program.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained the RTCIP schedule, including cumulative exactions collected, cumulative interest earned, cumulative expenditures (including commitments), and cumulative ending balance.

- i. We reviewed to ensure that the recipient agency was using the most current approved fee amount.

Results: The County did not collect the correct exaction fee for 784 out of 897 unit permits issued. See the Findings and Recommendation section of the report.

- ii. We inquired of management as to whether procedures were in place to track each exaction fee paid by development.

Results: No exceptions were noted as a result of our procedures.

- iii. We determined whether all exaction fees have been expended or committed within seven years of collection.

Results: No exceptions were noted as a result of our procedures.

- iv. If exaction fees are committed, but not expended within seven years, we obtained evidence that unexpended RTCIP revenue was programmed in the RTIP before the expiration of the seven year timeframe. We also ensured that a footnote was provided on the status of the project.

Results: No exceptions were noted as a result of our procedures.

- v. We obtained from SANDAG the list of RTCIP-approved regional arterial system projects and tested at least 10% of the expenditures to ensure that the expenditures were for projects in the approved regional arterial system project list.

Results: This procedure is not applicable as the County did not incur RTCIP expenditures for the fiscal year ending June 30, 2023.

- vi. If unallowable expenditures were identified in procedure 13.c.v, we expanded the sample to include an additional 10% of the expenditures and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no RTCIP expenditures for fiscal year ending June 30, 2023.

- vii. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as there were no payroll expenditures for fiscal year ending June 30, 2023.

- viii. We documented the percentage of program revenue spent for fund administration or indirect costs. We determined whether the percentage was less than 3% per Section D.2 of the RTCIP attachment to the *TransNet* Ordinance. If expenditures exceeded 3%, we documented the excess and the recipient agency's plan to cure the excess.

Results: No exceptions were noted as a result of our procedures.

- ix. We determined whether the recipient agency provided its full monetary contribution required by Section 9.A of the *TransNet* Extension Ordinance. We inquired of management as to whether procedures existed to ensure all qualified properties were included in the program.

Results: No exceptions were noted as a result of our procedures.

- x. We identified interest income for the fiscal year and reviewed that the interest income amount per the RTCIP schedule agreed to the RTCIP general ledger. We reviewed the interest allocation methodology to ensure that it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

- xi. For any RTCIP funds that have been transferred, loaned or exchanged, we determined whether the requirements of Section 7 of the *TransNet* Ordinance had been met. If so, we documented details of the transfer, loan and/or exchange.

Results: This procedure is not applicable as the County did not transfer, loan, or exchange any RTCIP funds.

- xii. We inquired of management as to whether any developers have been allowed credits in lieu of paying the exaction fee. If so, we documented the credits granted and whether Section F of the RTCIP attachment to the Ordinance had been followed.

Results: Per inquiry with management, no developers have been allowed credits in lieu of paying the exaction fee.

- xiii. We documented the date the recipient agency provided RTCIP documentation to us for review.

Results: The County provided RTCIP documentation to us for review on October 16, 2023.

- xiv. We summarized the recipient agency's compliance with the requirements of Section G.2 of the RTCIP attachment to the *TransNet* Extension Ordinance.

Results: No exceptions were noted as a result of our procedures.

- 14. We reviewed the RTIP and identified any administrative projects included in the RTIP. If administrative projects were included in the RTIP, we ensured that administrative costs included in Local Street Improvements were no more than 1% of the annual apportionment.

Results: The County did not include any administrative projects in the RTIP.

- 15. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no prior year findings and recommendations.

- 16. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: See the Findings and Recommendations section of this report.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on the County's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

Irvine, California
June 10, 2024

COUNTY OF SAN DIEGO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Findings and Recommendations

Year Ended June 30, 2023

(1) Need to Use Approved Exaction Fee

The County did not consistently collect the required exaction fee amount of \$2,688.21 during the fiscal year ended June 30, 2023. For 784 units out of 897 units, the exaction fees were inputted incorrectly into the system as \$2,688.12. This resulted in an under-collection of the exaction fee in the total amount of \$70.56.

<u>Number of units</u>	<u>Amount Required</u>	<u>Amount Charged</u>	<u>Variance</u>
784	\$2,107,556.64	\$2,107,486.08	\$70.56

SANDAG Board recommendations as of February 9, 2022 and subsequent approval states, in part:

“...the Board of Directors is asked to approve a 2 percent adjustment to the Regional Transportation Congestion Improvement Program (RTCIP) raising the minimum fee from \$2,635.50 to \$2,688.21 beginning July 1, 2022.”

Additionally, Board Policy 031, Rule #23 B.5 states in part:

“...if, however, the audit establishes a local agency did not provide its full monetary contribution under the RTCIP and the local agency does not cure defects of which it was notified by the time the audit is finalized and adopted by the ITOC, then the local agency will have forfeited its Section 4(D)(1) contribution. Any amount paid to the local agency in the fiscal year that was the subject of the audit will be retroactively owed to the Commission...”

Recommendation

We recommend that the County recover the under-collection of exaction fees in the amount of \$70.56. Additionally, we recommend that the County ensure the correct exaction fee for the applicable fiscal year be inputted into the system.

Management Response

The County will recover the under-collected exaction fees totaling \$70.56 for 784 units from the General Fund before fiscal year end June 30, 2024. Exaction fees are updated each year in our ERP system and billing system before the commencement of each fiscal year. County Program and Financial Services staff will review, compare, and validate the approved rates upon notification of the new rate and effective date from SANDAG. County staff have been reminded and re-trained on updating permit fees annually and will monitor for any inconsistencies to help reduce or eliminate under collection in the future.

GLOSSARY OF TERMS

"Annual Street Report" means the State of California Annual Street Report.

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MOE" means Maintenance of Effort as explained in Section 8 of the *TransNet* Extension Ordinance and Expenditure Plan.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including the County of San Diego and the Cities of Carlsbad, Chula Vista, Coronado, Del Mar, El Cajon, Encinitas, Escondido, Imperial Beach, La Mesa, Lemon Grove, National County, Oceanside, Poway, San Diego, Santee, San Marcos, Solana Beach, and Vista, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTCIP" means the Regional Transportation Congestion Improvement Program, the new development exactions required per Section 9 of the *TransNet* Extension Ordinance.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

Notes:

- (a) This is the County's cost-share of the installation of the regional traffic signal management software and linking of the local agencies to a common system. The County did not receive this cash and did not incur any expenditures. This was a pass-through managed by SANDAG.
- (b) CNTY82 Alpine Blvd project complete. Remaining funds will be transferred to CNTY14A Santa Fe Ave – South in FY24/25. The County passed a resolution to amend the RTIP on April 10, 2024, Minute Order 4 to approve the transfer.
- (c) Negative project status balance is due to qualifying expenditures incurred during the fiscal year. The remaining reimbursement will be received in FY23-24.

(a) Interest income and project expenditures for FYs 17 through 23 are adjusted based on the Schedule C Guidelines. According to the Guidelines, interest earned shall be allocated equitably to each year that had a beginning balance. Expenditures were also applied to the oldest cumulative funds available.

INDEPENDENT TAXPAYER OVERSIGHT COMMITTEE

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the Independent Taxpayer Oversight Committee's (ITOC's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. ITOC's management is responsible for compliance with the Ordinances and Board Policy.

ITOC has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by ITOC with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Extension Ordinance, and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff, Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance.

- a. We substantiated all footnotes required in Schedule A.

Results: This procedure is not applicable as there were no footnotes required in Schedule A.

- b. We agreed the beginning balance from the prior year or reviewed that SANDAG staff provided a footnote for any restatements of ITOC activity. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- c. We obtained a listing of *TransNet* payments made for the ITOC from SANDAG staff. We compared the *TransNet* revenue recorded for the ITOC to the listing of payments received from SANDAG staff. We notified SANDAG staff of any variations and obtained approval from SANDAG.

Results: No exceptions noted as a result of our procedures.

- d. We identified the interest income reported for the year ended June 30, 2023.
 - i. We reviewed the interest income reported on Schedule A and matched to SANDAG's general ledger.

Results: No exceptions noted as a result of our procedures.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: No exceptions noted as a result of our procedures.

- e. We identified the total *TransNet* expenditures for the fiscal year.
 - i. We reviewed the total project expenditures per Schedule A and agreed to SANDAG's general ledger.

Results: No exceptions noted as a result of our procedures.

- ii. We reviewed at least 25% of ITOC expenditures as reported by SANDAG to determine if they were necessary and reasonable in carrying out ITOC responsibilities under the *TransNet* Extension Ordinance in the ITOC Responsibilities Section of the attachment to Commission Ordinance CO-04-01 entitled "Statement of Understanding Regarding the Implementation of the Independent Taxpayer Oversight Committee for the *TransNet* Program."

Results: ITOC recorded total *TransNet* expenditures in the amount of \$279,498. We selected \$81,698 (29.23%) for testing. No exceptions were noted as a result of our procedures.

- iii. If unallowable expenditures were identified in procedure 3.e.ii, we expanded the sample to include an additional 25% of ITOC expenditures and documented SANDAG's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures are required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 3.e.ii.

- iv. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: ITOC recorded total *TransNet* payroll expenditures in the amount of \$134,498, which represented 48.12% of total expenditures. We selected one pay period and five employees for testing. No exceptions were noted as a result of our procedures.

- v. We reviewed to ensure that SANDAG's administrative expenditures complied with Commission Ordinance CO-2021-01 that the total administrative expenditures did not exceed \$250,000, as adjusted for inflation.

Results: ITOC recorded total administrative expenditures of \$134,498, which did not exceed \$250,000, as adjusted for inflation. No exceptions were noted as a result of our procedures.

4. We obtained from SANDAG staff, Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance.

- a. We reviewed the ending balances at June 30, 2023 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustment column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no amounts listed in the Adjustment column of Schedule A.

5. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no findings and recommendations noted in the prior year report.

6. We proposed current year findings as a result of performing the above agreed-upon procedures. We included SANDAG staff's response to address the ITOC finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on ITOC's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of ITOC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

DavisFarrLLP

Irvine, California
June 10, 2024

GLOSSARY OF TERMS

“Current Fiscal Year” means the fiscal period of July 1, 2022 through June 30, 2023.

“ITOC” means the Independent Taxpayer Oversight Committee, with the administrative functions performed by SANDAG.

“SANDAG” means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

“SANDAG Board Policy No. 031” means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

“Schedule A” means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

“Schedule B” means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

“TransNet Extension Ordinance” means the 2004 Proposition A.

SAN DIEGO METROPOLITAN TRANSIT SYSTEM

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the San Diego Metropolitan Transit System's (MTS') compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. MTS' management is responsible for compliance with the Ordinances and the Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by MTS with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: This procedure is not applicable as MTS does not participate in the Grant Program.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: Per discussion with management, the *TransNet* revenues and expenditures are not recorded in a separate fund, but MTS maintains separate accountability for all *TransNet* activity. This alternative approach to maintaining separate accountability is allowed per SANDAG Board Policy No. 031, Rule #6, if approved by SANDAG. SANDAG has accepted MTS' alternative approach.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: This procedure is not applicable as there were no footnotes in Schedule A to be substantiated.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. If variances existed, we notified the recipient agency and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed the interest income reported on Schedule A and agreed it to the recipient agency's general ledger.

Results: This procedure is not applicable as there was no interest income required to be reported on Schedule A.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: This procedure is not applicable as interest income was not reported on Schedule A.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: MTS recorded total *TransNet* expenditures in the amount of \$89,720,120. We selected \$23,290,439 (25.96%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25%, and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: No exceptions were noted as a result of our procedures.

- vi. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a federal or state agency, or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: MTS allocated indirect costs to MPO ID MTS33A and SAN80 included in the RTIP for the year ended June 30, 2023 at an overhead rate of 37.3% and a fringe rate of 50.62%. The total dollar amount of indirect costs charged was \$156,923, which represented a 0.17% of total *TransNet* expenditures. MTS has a formal Indirect Cost Rate Proposal for the fiscal year ended June 30, 2023 to the U.S. Department of Transportation and Federal Transit Administration for review and approval with the fixed indirect cost rate of 37.30%. The proposed rate has not yet been approved as of June 10, 2024. Additionally, MTS engaged an independent CPA firm to perform agreed-upon procedures applied to its indirect cost rates. The firm used 2 CFR Part 200 as its criteria in reviewing the rates, and concluded that MTS' rates were consistent with the provision of 2CFR Part 200. No exceptions were noted as a result of our procedure.

- g. We determined that any amounts reflected in the "Adjustments" column are explained in the form of a footnote and that the adjustments are consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: This procedure is not applicable as there were no adjustments for the fiscal year ended June 30, 2023.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We reviewed that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: This procedure is not applicable as there were no completed projects for the fiscal year ended June 30, 2023.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was presented that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed projects for the fiscal year ended June 30, 2023.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III. We substantiated that additional funding is available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2023.

Results: This procedure is not applicable as there was not a negative ending balance.

- j. We reviewed that inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had presented a footnote as to the status of the project that included when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.

- k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- m. We reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as MTS had no non-*TransNet* activity for the fiscal year.

7. We obtained from the recipient agency the Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.
 - a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension). We reviewed the ending balances at June 30, 2023 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: This procedure is not applicable as there were no adjustments included in Schedule A.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B completed section by category.

Results: No exceptions were noted as a result of our procedures.

8. We reviewed that the ending fund balance per Schedule A for those projects that are derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: MTS is in compliance with the 30% requirement as follows:

	Senior and <u>Disabled</u>	<u>Transit</u>
Fiscal year 2023 apportionment	\$1,209,612	\$45,602,380
Less: debt service payment	_____ -	_____ -
Net estimated apportionment 30% base	1,209,612 _____ 30%	45,602,380 _____ 30%
Fiscal year 2023 30% threshold	_____ <u>362,884</u>	_____ <u>13,680,714</u>
Less:		
Fund balance	_____ -	_____ -
Fund balance under apportionment	\$ <u>362,884</u>	\$ <u>13,680,714</u>

9. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

10. We reviewed transit operator eligibility for receipt of funds.
 - a. We calculated and reported the total operating cost per revenue vehicle hour for bus services and total operating cost per revenue vehicle mile for rail services for the current year and prior year. We documented how the transit operators compile their information used in their calculation. We ensured the calculation did not include any non-cash transactions.
 - b. We obtained from SANDAG staff the increase in CPI over the same period of the prior year.
 - c. We reviewed and reported that the increase in the total operating cost per revenue vehicle hour for bus services and total operating cost per revenue vehicle mile for rail services (calculated in [a]) does not exceed the increase in the CPI (obtained in [b]).

Results: The increase in the total operating cost per revenue vehicle hour for bus services, and total operating cost per revenue vehicle mile for rail services are shown in the table below. The change in CPI from 2022 to 2023 was (1.83)%. The change in total operating cost per revenue vehicle hour for bus services was 14.60% and the change in total operating cost per revenue vehicle mile for rail services was 12.10%. Therefore, MTS was not in compliance with both the bus and rail operator eligibility requirements. MTS submitted to the SANDAG Board, a request to recalculate the operator eligibility for both bus and rail services using the 3 year average calculation. On April 26, 2024, the SANDAG Board of Directors approved MTS' request. Therefore, we have calculated operator eligibility for bus and rail services and MTS is now in compliance with this requirement.

Operating Cost per Revenue Vehicle Hour for Bus Services

	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>Growth Rate</u>
Operating cost for buses	\$215,732,636	\$201,589,171	\$202,213,207	
Revenue vehicle hours	1,880,383	2,013,662	1,981,718	
Total operating cost per revenue vehicle hour	\$114.73	\$100.11	\$102.04	6.88%
Consumer Price Index	286.586	291.916	247.856	9.45%

Operating Cost per Revenue Vehicle Mile for Rail Services

	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>Growth Rate</u>
Operating cost for rail	\$128,237,421	\$104,704,575	\$98,061,336	
Revenue vehicle miles	12,700,555	11,626,878	10,077,479	
Total operating cost per revenue vehicle mile	\$10.10	\$9.01	\$9.73	0.82%
Consumer Price Index	286.586	291.916	247.856	9.45%

11. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no findings and recommendations noted in the prior year report.

12. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on MTS' compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of MTS and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"CPI" means Consumer Price Index for San Diego County. For the transit operators, CPI is taken from the Bureau of Labor Statistics West Information Office for San Diego, CA (1st Half 2023 of the Semiannual average indexes Table).

"Current Fiscal Year" means the fiscal period of July 1, 2022, through June 30, 2023.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including Metropolitan Transit System and North County Transportation Commission, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means the San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"TransNet Extension Ordinance" means the 2004 Proposition A.

"TransNet Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

NORTH COUNTY TRANSIT DISTRICT

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the North County Transit District's (NCTD's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. NCTD's management is responsible for compliance with the Ordinances and the Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by NCTD with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG staff the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG staff the *TransNet* Grant Program spreadsheet.

Results: This procedure is not applicable as NCTD does not participate in the Grant Program.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: Per discussion with management, the *TransNet* revenues and expenditures are not recorded in a separate fund, but NCTD maintains separate accountability for all *TransNet* activity. This alternative approach to maintaining separate accountability is allowed per SANDAG Board Policy No. 031, Rule #6, if approved by SANDAG. SANDAG has accepted NCTD's alternative approach.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures from the recipient agency for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension).

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. If variances existed, we notified the recipient agency and obtained approval from SANDAG.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed the interest income reported on Schedule A and agreed it to the recipient agency's general ledger.

Results: This procedure is not applicable as there was no interest income required to be reported on Schedule A.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: This procedure is not applicable as interest income was not reported on Schedule A.

- f. We identified the total *TransNet* expenditures for the fiscal year.

- i. We reviewed the total project expenditures per Schedule A and agreed to the recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

- ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: NCTD recorded total *TransNet* expenditures in the amount of \$27,836,599. We selected \$9,605,680 (34.51%) for testing. No exceptions were noted as a result of our procedures.

- iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

- iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25%, and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

- v. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as the payroll expenditures did not exceed the 20% of the total dollar amount of expenditures.

- vi. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a federal or state agency, or audited by an independent certified public accounting firm (CPA). We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: This procedure is not applicable as there were no indirect costs allocated to projects included in the RTIP.

- g. We determined that any amounts reflected in the "Adjustments" column are explained in the form of a footnote and that the adjustments are consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We reviewed that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: This procedure is not applicable as there were no completed projects for the fiscal year ended June 30, 2023.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was presented that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type of authorization and date of authorization.

Results: This procedure is not applicable as there were no completed projects for the fiscal year ended June 30, 2023.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III. We substantiated that additional funding is available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2023.

Results: No exceptions were noted as a result of our procedures

- j. We reviewed that inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient agency had presented a footnote as to the status of the project that included when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.
 - k. We obtained approval from SANDAG staff for the reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.
 - l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We determined whether transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.
 - m. We reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as NCTD had no non-*TransNet* activity for the fiscal year.
7. We obtained from the recipient agency the Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.
 - a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension). We reviewed the ending balances at June 30, 2023 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.
 - b. We reclassified all amounts listed in the Adjustments column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.
 - c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B completed section by category.

Results: This procedure is not applicable as there were no completed projects reported in the prior year's Schedule A.

8. We reviewed that the ending fund balance per Schedule A for those projects that are derived from the recipient agency's annual *TransNet* apportionment was not more than 30% of the recipient agency's current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: NCTD is in compliance with the 30% requirement as follows:

	Senior and Disabled	Transit
Fiscal year 2023 apportionment	\$490,235	\$18,481,859
Less: debt service payment	<u>-</u>	<u>(1,423,863)</u>
Net estimated apportionment	490,235	17,057,996
30% base	<u>30%</u>	<u>30%</u>
Fiscal year 2023 30% threshold	<u>147,070</u>	<u>5,117,399</u>
Less:		
Fund balance	<u>-</u>	<u>-</u>
Fund balance under apportionment	<u>\$ 147,070</u>	<u>\$5,117,399</u>

9. If applicable, we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: The results are summarized below:

	Balance <u>July 1, 2022</u>	<u>Additions</u>	Principal <u>Payments</u>	Balance <u>June 30, 2023</u>	Interest <u>Payments</u>
Commercial Paper	\$20,450,000	\$ -	\$(1,350,000)	\$19,100,000	\$(73,863)

10. We reviewed transit operator eligibility for receipt of funds.
 - a. We calculated and reported the total operating cost per revenue vehicle hour for bus services and total operating cost per revenue vehicle mile for rail services for the current year and prior year. We documented how the transit operators compile their information used in their calculation. We ensured the calculation did not include any non-cash transactions.
 - b. We obtained from SANDAG staff the increase in CPI over the same period of the prior year.

- c. We reviewed and reported that the increase in the total operating cost per revenue vehicle hour for bus services and total operating cost per revenue vehicle mile for rail services (calculated in [a]) does not exceed the increase in the CPI (obtained in [b]).

Results: The increase in the total operating cost per revenue vehicle hour for bus services, and total operating cost per revenue vehicle mile for rail services are shown in the table below. The change in CPI from 2022 to 2023 was (1.83)%. The change in total operating cost per revenue vehicle hour for bus services was 17.89% and the change in total operating cost per revenue vehicle mile for rail services was 1.95%, and thus NCTD was not in compliance with both requirements. NCTD submitted to the SANDAG Board, a request to recalculate the operator eligibility for bus services using 3 year average calculation and excluding increase in costs and for rail services using 3 year average calculation. On April 26, 2024, the SANDAG Board of Directors approved NCTD’s request. Therefore, we have calculated operator eligibility for bus and rail services and NCTD is now in compliance with this requirement.

Operating Cost per Revenue Vehicle Hour for Bus Services

	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>Growth Rate</u>
Operating cost for buses	\$63,880,456	\$59,648,926	\$57,305,029	
Revenue vehicle hours	446,040	461,315	475,203	
Total operating cost per revenue vehicle hour	\$143.22	\$129.30	\$120.59	7.79%
Consumer Price Index	286.586	291.916	247.856	9.45%

Operating Cost per Revenue Vehicle Mile for Rail Services

	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>Growth Rate</u>
Operating cost for rail	\$66,569,053	\$60,070,772	\$46,404,889	
Revenue vehicle miles	917,029	877,589	662,745	
Total operating cost per revenue vehicle mile	\$72.59	\$68.45	\$70.02	6.44%
Consumer Price Index	286.586	291.916	247.856	9.45%

11. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no findings and recommendations noted in the prior year report.

12. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on NCTD's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of NCTD and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

"CPI" means Consumer Price Index for San Diego County. For the transit operators, CPI is taken from the Bureau of Labor Statistics West Information Office for San Diego, CA (1st Half 2023 of the Semiannual average indexes Table).

"Current Fiscal Year" means the fiscal period of July 1, 2022, through June 30, 2023.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including Metropolitan Transit System and North County Transportation Commission, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means the San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"TransNet Extension Ordinance" means the 2004 Proposition A.

"TransNet Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.

SAN DIEGO ASSOCIATION OF GOVERNMENTS
SAN DIEGO, CALIFORNIA

Report on Agreed-Upon Procedures
Applied to the *TransNet* Fund

Year Ended June 30, 2023

INDEPENDENT ACCOUNTANT'S REPORT

Independent Taxpayer Oversight Committee
San Diego Association of Governments
San Diego, California

We have performed the procedures enumerated below in reviewing the San Diego Association of Governments' (SANDAG's) compliance with the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and the San Diego Association of Governments (SANDAG) Board Policy No. 031 with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. SANDAG's management is responsible for compliance with the Ordinances and Board Policy.

The Independent Taxpayer Oversight Committee (ITOC) has agreed to and acknowledged that the procedures performed are appropriate to meet the intended purpose of evaluating compliance by SANDAG with respect to the *TransNet* Program Schedules A, B, and C, as applicable, for the fiscal year ended June 30, 2023. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

The procedures and the associated findings are as follows. Definitions of terms are included as Attachment A.

1. We reviewed the *TransNet* Ordinance and Expenditure Plan, *TransNet* Extension Ordinance, and SANDAG Board Policy No. 031.

Results: No exceptions were noted as a result of our procedures.

2. We obtained from SANDAG the applicable approved RTIP.

Results: No exceptions were noted as a result of our procedures.

3. We obtained from SANDAG the *TransNet* Grant Program spreadsheet.

Results: No exceptions were noted as a result of our procedures.

4. We inquired of the recipient agency's management and determined whether the recipient agency maintains a separate fund for *TransNet* revenues or has an alternative approach to maintaining separate accountability for reasonableness.

Results: No exceptions were noted as a result of our procedures.

5. We obtained a detailed general ledger for *TransNet* revenues and expenditures for SANDAG and SDCRTC for the current fiscal year.

Results: No exceptions were noted as a result of our procedures.

6. We obtained from the recipient agency Schedule A that includes a beginning balance, *TransNet* funds received, expenditures, interest income, adjustments, and an ending balance listed alpha-numeric by MPO ID and identifying recipient agency project number.

- a. We substantiated all footnotes required in Schedule A.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed Schedule A and determined that the projects are properly classified and reported by *TransNet* program (i.e., original *TransNet* vs. *TransNet* Extension; local streets and roads; local street improvements, including congestion relief vs. maintenance; highway; major corridor; environmental mitigation program; etc). We determined that the projects are properly classified by SANDAG and SDCRTC.

Results: No exceptions were noted as a result of our procedures.

- c. We agreed the beginning balance from the prior year or reviewed that the recipient agency provided a footnote for any restatements. We determined whether reasons for differences were valid.

Results: No exceptions were noted as a result of our procedures.

- d. We obtained a listing of *TransNet* payments made to the recipient agency from SANDAG staff. We compared the *TransNet* revenue recorded by the recipient agency to the listing of payments received from SANDAG staff. If variances existed, we notified SANDAG staff and obtained approval.

Results: No exceptions were noted as a result of our procedures.

- e. We identified the interest income reported for the fiscal year.

- i. We reviewed the interest income reported on Schedule A and matched it to the *TransNet* general ledger.

Results: This procedure is not applicable as there was no interest reported on Schedule A.

- ii. We reviewed the interest allocation methodology to ensure it was in accordance with the provisions of the Ordinance and Board Policy No. 031.

Results: This procedure is not applicable as there was no interest reported on Schedule A.

f. We identified the total *TransNet* expenditures for the year ended June 30, 2023.

i. We reviewed the total project expenditures per Schedule A and agreed to the respective recipient agency's general ledger.

Results: No exceptions were noted as a result of our procedures.

ii. We selected individual expenditures of at least 25% of the total dollar amount of expenditures from the general ledger and obtained supporting documentation (i.e., invoice and copy of check or EFT wire).

Results: SANDAG recorded total *TransNet* expenditures in the amount of \$117,718,836. We selected \$30,988,804 (26.32%) for testing. No exceptions were noted as a result of our procedures.

iii. For the expenditures selected, we identified the MPO ID that the expenditures are charged against and determined if the MPO ID is included in the RTIP (see procedure 2 above) and the expenditures are an eligible cost per the *TransNet* and *TransNet* Extension Ordinance and Expenditure Plan requirements.

Results: No exceptions were noted as a result of our procedures.

iv. If unallowable expenditures were identified in procedure 6.f.iii, we expanded the sample to include an additional 25% of the total dollar amount of expenditures, and documented the recipient agency's plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted the ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures identified in procedure 6.f.iii.

v. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transaction and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: This procedure is not applicable as payroll expenditures did not exceed 20% of the total dollar amount of expenditures.

vi. We inquired of management whether indirect costs were allocated to the projects included in the RTIP. If so, we documented the indirect cost rate, the dollar amount of the indirect costs charged to the *TransNet* program, the percentage of indirect costs compared to total *TransNet* expenditures, and the date the indirect cost plan was last updated. We documented the basis of allocation and evaluated the reasonableness of the methodology. We documented whether the recipient agency's indirect cost plan had been reviewed by a federal or state agency, or

audited by an independent certified public accounting firm. We documented an explanation if indirect costs exceeded 10% of total *TransNet* expenditures.

Results: SANDAG allocated indirect costs to projects included in the RTIP for the year ended June 30, 2023. SANDAG allocates indirect costs at a rate of 109.14% of direct labor costs associated with each project. SANDAG allocated a total of \$6,338,887 of indirect costs to projects, resulting in 5.38% of indirect costs compared to total *TransNet* expenditures. SANDAG's indirect cost plan has been reviewed and approved by the State of California Department of Transportation during FY 2023, and is updated by SANDAG on an annual basis. The indirect cost rate allocation methodology appears reasonable. No exceptions were noted as a result of our procedures.

- g. We determined that any amounts reported in the "Adjustments" column was explained in the form of a footnote and that the adjustments were consistent with SANDAG Board Policy No. 031, Rule #17, Section III, including the type or expected type of authorization and date of authorization. Adjustments within the same MPO ID do not require a footnote.

Results: No exceptions were noted as a result of our procedures.

- h. We obtained a list of completed projects from the recipient agency that are reported by the *TransNet* program and MPO ID. We determined whether any remaining *TransNet* funds for completed projects were transferred to another *TransNet*-eligible project within the same Program or related Program. We reviewed that completed projects from the previous year were no longer shown in the current year Schedule A.

Results: No exceptions were noted as a result of our procedures.

- i. If the balance of a completed project had not been transferred to another *TransNet*-eligible project, we ensured that a footnote was presented that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III, including the expected type or authorization and date of authorization.

Results: This procedure is not applicable as there were no transfers of *TransNet* funds between projects.

- i. If a project ending balance is negative, we ensured that an explanation in the form of a footnote to Schedule A was provided that included the subsequent year's intended action in accordance with SANDAG Board Policy No. 031, Rule #17, Section III. We substantiated that additional funding was available in the RTIP or that an RTIP Amendment will be in process prior to June 30, 2023.

Results: No exceptions were noted as a result of our procedures.

- j. We reviewed that inactive projects which have had no activity over the past two years, other than interest earnings, were closed out or that the recipient

agency has provided a footnote of the status of the project that includes when the project will be completed.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.

- k. We obtained approval from SANDAG staff for reason of inactivity.

Results: This procedure is not applicable as there were no inactive projects which have had no activity over the past two years.

- l. We obtained a signed staff report or resolution from the recipient agency's governing body consenting to the transfer of *TransNet* funds from one project to another. We reviewed that transfers requiring an amendment to the RTIP followed the amendment process outlined in Rule #7 of SANDAG Board Policy No. 031.

Results: This procedure is not applicable as there were no transfer of funds between projects.

- m. We reported all non-*TransNet* activity separate from *TransNet* activity in Schedule A.

Results: This procedure is not applicable as SANDAG had no non-*TransNet* activity for the fiscal year.

7. We obtained from the recipient agency the Schedule B which includes cumulative information for all *TransNet* Extension projects including *TransNet* funds received, expenditures, interest income (either listed by project or Program), and an ending balance listed alpha-numeric by MPO ID.

- a. We reviewed Schedule B and determined that projects were properly classified and reported by *TransNet* program (i.e., local street improvements, including congestion relief versus maintenance; major corridors; and environmental mitigation program; etc.). We reviewed the ending balances at June 30 and ensured that the balances agreed for those projects reported in both Schedule A and Schedule B.

Results: No exceptions were noted as a result of our procedures.

- b. We reclassified all amounts listed in the Adjustment column of Schedule A to funds received, expenditures, or interest income.

Results: No exceptions were noted as a result of our procedures.

- c. We identified any completed projects reported in the prior year's Schedule A and ensured that all completed projects were reported in the current year's Schedule B completed section by category.

Results: This procedure is not applicable as SANDAG does not track completed projects within Schedule A.

8. We determined that the ending project status per Schedule A for those projects that are derived from the recipient agency’s annual *TransNet* apportionment was not more than 30% of the recipient agency’s current fiscal year annual apportionment, net of debt service payments. We determined whether the recipient agency included a schedule showing the annual apportionment, debt service deduction (if applicable), net annual apportionment, 30% balance threshold, applicable project status balance, and balance over/under the threshold.

Results: This procedure is not applicable as the 30% balance threshold applies to *TransNet* recipients that receive an annual apportionment per the Ordinance. SANDAG is not a recipient of an annual apportionment.

9. If applicable (including SDCRTC), we compared long-term debt information reported on Schedule A to the schedule of long-term debt for each recipient agency provided by SANDAG staff.

Results: This procedure is not applicable as there is no long-term debt outstanding as of June 30, 2023.

10. For recipient SANDAG, acting as the SDCRTC, only, we obtained a schedule of bond financing costs related to highway and transit capital projects indicating beginning balance, additions and ending paid to date balance. We ensured the financing costs were properly supported and have not exceeded \$500,000,000 (2002 dollars). We agreed the current fiscal year financing costs to SANDAG records.

Results: The schedule of bond financing costs related to highway and transit capital projects is summarized below. The total cost of \$58,079,764 did not exceed \$500,000,000 in 2002 dollars. No exceptions were noted as a result of our procedures.

<u>Debt Issuance</u>	<u>Balance at July 1, 2022</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance as of June 30, 2023</u>
Commercial Paper	\$5,677,132	\$385,630	\$-	\$6,062,762
2008 Bonds	35,029,282	1,751,494	-	36,780,776
2010 Bonds	2,930,565	5,445	-	2,936,010
2012 Bonds	2,338,585	-	-	2,338,585
2014 Bonds	1,308,523	3,967	-	1,312,490
2016 Bonds	1,216,662	4,378	-	1,221,040
2017 TIFIA Loan	1,256,300	40,373	-	1,296,673
2018 Short Term	1,568,812	-	-	1,568,812
2019 Bonds	1,442,779	1,864	-	1,444,642
2020 Bonds	420,622	2,780	-	423,402
2021 Bonds	1,336,919	4,180	-	1,341,099
2021 Note	964,155	2,450	-	966,605
2020 Bonds	184,734	199,632	-	384,366
2021 TIFIA Loan	-	2,500	-	2,500
Total	\$55,675,070	\$2,404,695	\$-	\$58,079,764

11. We reviewed to ensure that SANDAG’s administrative expenditures complied with Section 12 of the *TransNet* Extension Ordinance:

a. We reviewed and ensured that the total administrative expenditures did not exceed 2% of the annual *TransNet* apportioned revenues, plus any funds not utilized in prior years.

Results: No exceptions were noted as a result of our procedures.

b. We reviewed the administrative expenditure project numbers and ensured only projects approved in the 2023 Budget were included in administrative expenditures.

Results: SANDAG recorded total administrative expenditures in the amount of \$10,100,092. We reviewed the detail of administrative expenditures and noted the following cost centers included within:

<u>Cost Center</u>	<u>Amount Expended</u>
Payroll Expenses	\$ 6,856,481
Operational Expenses	2,995,268
Board of Directors	184,798
Legal Fees	<u>63,545</u>
Total	<u>\$10,100,092</u>

c. We reviewed at least 25% of the administrative expenditures and ensured that they were expended by recipient SANDAG for costs necessary to administer *TransNet*.

Results: SANDAG recorded total administrative expenditures in the amount of \$10,100,092. We selected \$2,878,844 (28.50%) for testing. No exceptions were noted as a result of our procedures.

d. If unallowable expenditures were identified in step 11.c we expanded the sample to include an additional 25% of administrative expenditures, and documented SANDAG’s plan to cure the unallowable expenditures. If additional unallowable expenditures were identified, we contacted ITOC Audit Subcommittee Chair to determine whether additional procedures were required.

Results: This procedure is not applicable as there were no unallowable expenditures noted in step 11.c.

e. If payroll expenditures exceeded 20% of the total dollar amount of expenditures, we selected a sample of payroll transactions and obtained supporting documentation (i.e. payroll register, timesheet, and personnel action form). We evaluated whether the direct payroll charge appeared reasonable for the project.

Results: SANDAG recorded total *TransNet* administrative payroll expenditures in the amount of \$6,856,481, which represented 67.89% of total administrative expenditures. We selected one pay period and five employees for testing. No exceptions were noted as a result of our procedures.

12. For SANDAG, acting as the SDCRTC, only, we performed the following procedures:

- a. We inquired and obtained source data used to calculate the Local Street Improvement Allocation Schedule in the TTrak program and recalculated the total funds contributed per jurisdiction.

Results: No exceptions were noted as a result of our procedures.

- b. We reviewed the FY 2023 *TransNet* Local Street Improvements Allocation Schedule and determined that at least 70% of the revenues provided for Local Street Improvement purposes were used for congestion relief purposes and that no more than 30% for maintenance purposes.

Results: No exceptions were noted as a result of our procedures.

13. We reviewed and documented the status of any prior year findings and recommendations.

Results: This procedure is not applicable as there were no findings and recommendations noted in the prior year report.

14. We proposed current year findings as a result of performing the above agreed-upon procedures. We included the recipient agency's response to address the finding.

Results: This procedure is not applicable as there were no findings and recommendations required to be prepared for the year ended June 30, 2023.

We were engaged by ITOC to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on SANDAG's compliance with the *TransNet* Ordinance and *TransNet* Extension Ordinance as of June 30, 2023. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of SANDAG and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon procedures engagement. This report is intended solely for the information and use of ITOC and SANDAG and is not intended to be and should not be used by anyone other than these specified parties.

GLOSSARY OF TERMS

Definitions

"Current Fiscal Year" means the fiscal period of July 1, 2022 through June 30, 2023.

"ITOC" means the Independent Taxpayer Oversight Committee.

"MPO ID" means Metropolitan Planning Organization Identification Number; the number assigned to approved RTIP projects.

"Recipient Agency" means an agency, including SANDAG and SDCRTC, that receives *TransNet* funding on an annual basis for one or more of the *TransNet* Programs.

"RTIP" means the Regional Transportation Improvement Program, a multi-year program of projects for major transportation projects in the San Diego County region.

"SANDAG" means San Diego Association of Governments, the responsible agent for the administration of the *TransNet* Ordinances.

"SANDAG Board Policy No. 031" means the SANDAG Board Policy No. 031: *TransNet* Ordinance and Expenditure Plan Rules.

"Schedule A" means the Annual Schedule of Status of Funds by Project; a roll-forward listing of all recipient agency active *TransNet* projects.

"Schedule B" means the Cumulative Schedule of Status of Funds by Project; a cumulative roll-forward listing of all recipient agency *TransNet* Extension Ordinance projects.

"SDCRTC" means the San Diego County Regional Transportation Commission, a blended component unit of SANDAG.

"*TransNet* Extension Ordinance" means the 2004 Proposition A.

"*TransNet* Ordinance and Expenditure Plan" means the 1987 Proposition A San Diego Transportation Improvement Plan.
